

SP 2024

# THE WESTIN STORY

The first ever Westin lure was created by the late Ingvar Westin, a skilled toolmaker who wanted to make a toy for his children. He carved a fish which wriggled and rolled like a real fish as they dragged it through the water. And since it looked like an oversized pike lure, he christened it "Jätte" – The Swedish word for "giant". The Westin Jätte was born, and so was an entire new fishing movement – the Westin roll.

Even though he was creating a toy, Ingvar Westin was driven by passion and perfection. So it wasn't long before others noticed the characteristic looks and movement of the Jätte. Local pike fishing experts compared its perfect balance and side-to-side swimming action with the pike lures of the time. They found that due to Jätte's size and unique action the biggest pike were irresistibly attracted to it. The childrens' 'toy' had found a serious purpose among the grown-ups!

Before long, pike fishermen near his home in Skutskär near Gävle were demanding Ingvar make more and more of these amazing lures for them in a choice of colors.

They used them in the local lakes, rivers and the brackish water of the Baltic Sea nearby – excellent pike fishing waters that offered up loads of great specimens to the new lure. Ingvar soon had a busy production line running.

By the time it allegedly trapped a giant pike in excess of 20Kg in the Archipelago of Norrtälje in 1977, Jätte was famous far and wide as the go-to big predator lure.

Since then, the Westin Jätte has deceived some of the biggest, wildest old pike in Sweden. What started out as a child's plaything in 1952 has now become a well-established and trusted brand in the fishing tackle industry.

Today Westin offers a wide range of trusted lures, rods and other fishing equipment – all produced with the same passion for perfection as Ingvar Westin's original lure, and created to satisfy those looking for the best tools to pursue monster fish.

## W|6 VERTICAL JIGGING

W|6

TORAYCA

- Split-handle with super grade EVA – compact and non-slippery
- Reel Seat: Fuji® SKSS - rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon Fibers for superior action and casting
- Flat ergonomic rear handle for extra support
- Low-profile guide wrappings
- PacBay® hook keeper

Raw strength, light weight, and extreme sensitivity packed in a fast blank are key ingredients when targeting species like zander and pike vertically. These are the exact ingredients of the W6 Vertical Jigging. The reason behind this is simple – the best available Torayca® high performance carbon you can find, combined with premium fittings. The sensitivity in this rod makes you almost feel the fish before it strikes, while the fast blank ensures the perfect hook-set. The custom designed ergonomic rear handle supports the forearm perfectly when jigging and fighting fish all day long. Made with a detachable handle, for easy transportation, without compromising on that 'one-piece style' action.

## W|6 DROPSHOT

W|6

TORAYCA

- Split-handle with super grade EVA - compact and non-slip
- Reel Seat: Fuji® SKSS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Flat rear handle
- Solid Tip
- KIGAN® hook keeper

Hold the phone, we've found you a new dancing partner. The W6 Dropshot is superbly balanced with a soft and sensitive tip that can detect any bite, allowing you to dance your soft lure along the bottom in your own unique way. A medium/fast action means you can set hooks instantly when a hungry perch or zander comes to interrupt your dance. The rod also benefits from some super smart design ideas that you have come to expect from Westin – a flattened and slightly curved top edge of the rear handle for increased support and control makes it a true pleasure to use.

W|6

TORAYCA

- Split-handle with super grade EVA - compact and non-slip
- Reel Seat: Fuji® SKSS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Custom made rubber gimbal, non-slip
- Low-profile guide wrappings
- PacBay® hook keeper

If you're into light tackle predator fishing, then the W6 Finesse T&C (Texas & Carolina) rod is your new best friend. It's superlight and sensitive with a fast tip action that will register any nibble and set the hook in any situation. It is perfect for casting soft lures or slowly twitching a Texas or Carolina rig along the bottom. You can use it when pitching small crankbaits in shallow water for perch, bass or zander. Finesse rods have just reached the next level, and you're invited to the club.

Combining street smarts design with great fishing technology, the W6 StreetStick is perfect for fishing in urban environments, small lakes and rivers, harbours and rock fishing. This rod has just as much technical performance as it does attitude – with a medium/fast action it can handle light softlures and small hardlures for targeting perch, trout and other smaller critters. We guarantee that you won't be able to catch something on this rod without a huge smile on your face.

TORAYCA

- Reel seat: Fuji® VSS
- Guides: Fuji® SIC K-guides
- Blank: Torayca® High performance Carbon blank
- Handle: Premium grade EVA handle

The W6 Powerstick is a lightweight and versatile powerhouse that fits the demand of the modern angler. These rods are packed with power, and due to premium Torayca® carbon fibers, you still get a true lightweight feel when fishing, fighting fish, and detecting even the most cautious bites. Use it in cold or tropical water, vertical or casting, from boat or shore – the W6 Powerstick will get the job done no matter where in the world you put them to use. These rods are excellent for seabass, jacks, small sized tuna, cod and saithe, but the versatile action of the W6 Powerstick also make them great for freshwater species like pike and zander.

## W|6 JIGGING & JIGGING-T

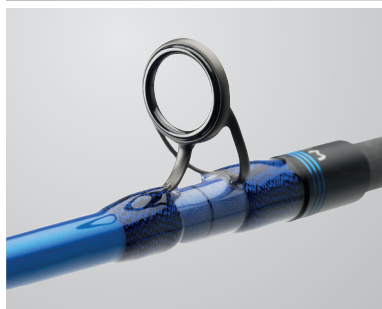

TORAYCA

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS with unique rubber coating
- Guides: Fuji® SiC MN
- Blank: Torayca® High Performance Carbon for superior action and casting
- Reinforced with 90° Carbon
- Aluminum Cross Gimbal
- Pac Bay Rubber Gimbal Cover
- Delivered in padded cloth bag
- Unique serial number on all rods
- PE4- 8 Max Power 33 kg

This speed jigging rod puts an end to the airport check in counter quarrels and the struggles of a lost rod barrel once you reach your dream destination. A two-section rod design makes it easier than ever to fit you rods in a suitcase, backpack or duffel bag to conquer the growing jungle of airport restrictions. On a rod made to wrestle some of the biggest and strongest fish designing a joint takes special attention. The mission of our rod designers was to make sure even the best reels broke before the rod. They succeeded and created the ultimate strength travel rod for speed jigging.

- Delivered in padded cloth bag
- Unique serial number on all rods
- PE6- 10 Max Power 12 kg / 22 kg

When fishing at a remote tropical destination no failures are allowed. Our rod designers knew this, when we asked them to make a range of rods that will make even the best reels break, if the rods are pushed to the max! Westin W6 Popping are designed for casting poppers and wrestling with rooster fish, GT's, cubera snappers and all other tough, tropical species. The rods feature saltwater super grade EVA handles, Fuji® DPS reel seat and Fuji® SiC guides. These rods will wrestle any monster fish and since they fit into your luggage, you will avoid airline restrictions and all the 'following-the-rules-monsters' waiting at the check in counter.

## W|6 BOAT

W|6

HIGH-PERFORMANCE CARBON FIBER  
**TORAYCA**

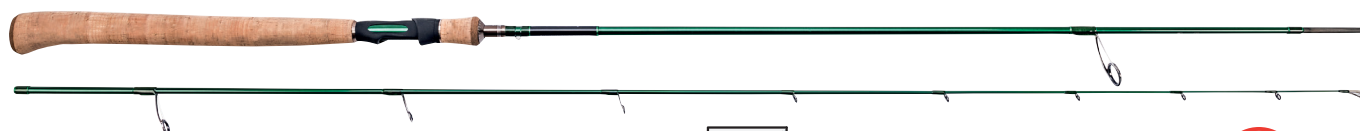

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS-H, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Custom design Comfort Cross Gimbal (CCG)
- Low-profile guide wrappings

Enough messing around, sometimes fishing is serious, and the W6 Boat is for those occasions. Designed following a long testing process it is perfect for hardcore guides or sea anglers. When chasing monster predators, like cod and halibut, you need three things: sensitivity, lightness and raw strength – and this rod has the top card in all three. Torayca® High performance carbon gives you a light and sensitive rod that could also pull any monster from the depths. If this rod was a human it would make Arnold Schwarzenegger look like a wimpy kid.

CODE	MODEL	LENGTH	CLASS	CW	SECTIONS	COVER	TRNSP L.	WEIGHT	CT

TORAYCA

- Handle: Super grade cork handle
- Reel Seat: Fuji® TVS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Unique Axe/Samurai sword shape on rear handle
- Low-profile guide wrappings
- PacBay® hook keeper

We know that medium/fast blanks have become a classic for many Scandinavian seatrout anglers, so instead of creating something new, we decided to try and perfect that. The W6 Spin is a casting cannon with a super sensitive feel that means you can still tell exactly what is going on even when fishing far out, and the power of its blank means you can tame hard-fighting fish with ease. This rod is especially designed for seatrout fishing on the coast – you can throw your lures in the harshest wind and rain, this baby can handle it – can you?

- Reinforced with 1k woven carbon
- D-Hook hook keeper

Casting Shads for all day long might sound like a tough job, but once you lean into one of those monster pike it is well worth the effort. The Powershad-T 2nd Generation make getting there a lot easier, and once you're hooked up you can be sure that the Torayca® High Performance Carbon blank will keep you in control. The W4 Powershad-T 2nd Generation rods have a softer tip, with the backbone in the blank to set the hooks, while still being sensitive, thanks to the fast progressive action. The W4 Powershad-T 2nd Generation is made for soft lures, but works equally well for casting hard lures, spinnerbaits or other lures for predators.

- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA.
- Custom made rubber bottom cap – Non-slip
- Reinforced with 1k woven carbon
- D-Ring Hook Keeper

The W4 Kayak 2nd Generation is designed to provide kayak, belly boat and small boat enthusiasts with a rod durable enough to perform in these demanding, close-quarter angling environments.

The rod comes with a detachable handle, which has enabled us to make a blank comparable to one-piece rods, but which is easier to transport.

This means the blank is packed with power, but with low weight and an extremely sensitivity tip – this rod will transmit even the gentlest takes to your fingers.

The stiff butt and concentrated power in the mid-section are designed specifically for fighting powerful fish whilst seated. W4 Kayak 2nd Generation is the perfect tool for the passionate small-boat angler!

- Handle: UltraGrip – High Quality EVA. Short design, ideal for Kayaks
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- Custom designed hook keeper

The W4 Ultrastick 2nd Generation combines the three key attributes that you want in an all-round predator rod. It's light, super sensitive, and with a fast-progressive action. The only problem with that is you will never have an excuse to miss a bite again.

They are not lacking backbone though - you can set the hook hard and extract large fish from cover and weed-beds. Versatility is another terrific strength of these rods. They are just as adept with small and medium-sized wobblers as they are with soft lures. The W4 Ultrastick 2nd Generation is made with a detachable handle, making it easier to transport, whilst retaining the feel of a one-piece blank.

- Custom designed hook keeper

If you are in need of a bit more power compared to the rest of our finesse rods, then the W4 Finesse Shad 2nd Generation is the rod for you. The W4 Finesse Shad 2nd Generation rods are a series of light to medium light predator rods. These rods are as versatile as any rod can get, which makes them perfect for a wide variety of fishing styles with both soft & hard lures, targeting species like perch, zander, asp, trout and pike. Made on a progressive fast and sensitive blank, which gives a premium feel and excellent strike detection, while still being powerful enough to set the hook and fight big fish.

TORAYCA

sea·guide®  
PRECISION ROD COMPONENTS

- Reel Seat: Fuji® DPS
- Guides: SeaGuide® XEG
- Blank: Torayca® High Performance Carbon for superior action
- Specially designed Comfort Cross Gimbal (CCG)
- Premium grade cork handle
- Reinforced with 1K woven carbon

It is hard to find a boat rod with more muscle and backbone than the Westin W4 Boat 2nd. These second generation rods feature more strength and sensitivity than the first generation, thanks to improved blank technology, and the incorporation of higher quality Torayca® carbon fibre. By tailoring the length and action of each model the range covers a wide range of sea fishing tactics and species. Using light pilks for cod and pollack? Fishing a wreck for conger, or going for halibut? Regardless of your target species, there is a rod in this range that will get the job done! The handle design and action are proven favorites amongst hardcore sea anglers, and the choice of fittings from SeaGuide and Fuji® will stand the test of time. Just lean back and let the W4 Boat 2nd do the work for you.

W4 FRESHWATER RODS / W4 SALTWATER RODS

NEW PERFORMANCE CARBON FIBER  
**TORAYCA**

**sea·guide®**  
PRECISION ROD COMPONENTS

- Reel seat: **FUJI® TVS**, rubber coated
- Guides: **Seaguide® XOHG/XOG, LS Ring Guides**
- Blank: **Torayca®**
- Premium grade cork handle
- D-ring hook keeper
- Fish measurement marks on blank
- Reinforced with **1K woven carbon**

The second generation of W4 Light Spin is perfect choice when you are moving around, but don't want to leave your fishing rod at home. These four-section rods fit perfect in your travel bag, or on your backpack during your fishing trip. These rods have been upgraded with higher grade of Torayca® fibers and resin in combination with a new blank construction for better balance, higher strength and a more responsive blank. These Light/Medium action rods are perfect for trout, perch and other fish in lakes, rivers, streams or along the coastline. We retained the classic and popular premium cork handle design, but upgraded to tangle-free Seaguides® XOHG/XOG guides and a rubber coated **FUJI® ACS** reel seat for best performance in all weathers.

NEW PERFORMANCE CARBON FIBER  
**TORAYCA**

**sea·guide®**  
PRECISION ROD COMPONENTS

Say hello to the second generation of W4 Spin rods. These popular four-piece W4 Spin rods just got even better. Carry the W4 Spin 2nd generation four-piece wherever you go - they are the perfect travel rods, packing down very small, and are ideal when fishing for sea trout, trout and sea bass. But don't think that just because these are travel rods they don't pack a punch. We have been able to accomplish a perfect four-piece rod with a Medium/Fast action without compromising on rod weight or sensitivity. To make the W4 Spin 2nd faster and more responsive we upgraded to higher quality Torayca® fibers and resin in combination with a new blank construction. Even if you are wading, bank, or boat fishing we just know how important it is to reach out to your favourite reef. We kept the classic and popular premium cork handle design, but upgraded with tangle-free Seaguides® XOHG/XOG guides and a rubber coated **FUJI® TVS** reel seat for best performance in all weathers. Travelling while fishing doesn't mean you have to compromise with your gear, we made sure of that.

The W3 Livecast-T 2nd Generation are a series of powerful rods made specifically for precise casting at short to medium range, targeting fishing that have been detected on your echo sounder. They also double-up as great regular vertical fishing rods too.

Designed to optimize your fishing when targeting giant pelagic zander or pike in those close quarter combat battles! The W3 Livecast-T 2nd Generation is made with Torayca® carbon fibers which gives a premium feel. The rod comes with a detachable handle to make transportation easier, whilst it has the feel of a regular one-piece rod. The custom made rear handle provides a perfect grip and gives extra support for your underarm for maximum comfort and control, even on the longest days out on the water.

- **Handle: Premium Grade EVA handle with rubber cork insert**

The W3 Powerteez 2nd Generation is a series of fast actioned rods with a powerful backbone, which features great casting abilities and a very sensitive tip. Balance is a key factor when jigging or fishing pelagic with soft lures. Thanks to Torayca® High Performance Carbon fibers, the W3 Powerteez 2nd Generation feels like a natural extension of your arm. These are key factors when jigging with soft lures after fish like zander and pike. You will not miss many bites with these rods, even a tentative nip from the most cautious fish has the potential to be turned into a fish in the net.

- Reinforced with 1K woven carbon

The name says it all – the W3 HybridCast-T 2nd can be used for various fishing techniques and in a range of situations. This versatile rod is perfect for fishing with Glidebaits, Crankbaits, Softbaits and Spinnerbaits when you are searching for big predators such as pike and zander. The W3 Hybrid Cast-T 2nd features lots of back bone for casting big lures effortlessly. The well-balanced fast action gives you perfect lure control and lots of power when fighting your dream fish. The custom-made rear handle provides the perfect grip and gives extra underarm support for maximum comfort and control, even on the longest days out on the water.

W|3

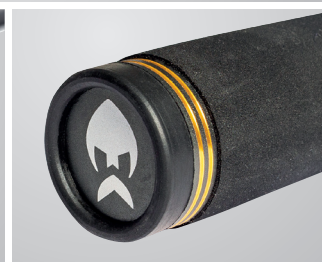

TORAYCA

sea·guide®  
PRECISION ROD COMPONENTS

- Reel Seat: SKTS
- Guides: Seaguide® LS ring guides
- Blank: Torayca® High Performance Carbon
- Split-handle with premium grade EVA with rubber cork insert
- Reinforced with 1K woven carbon
- Braid compensated blank, designed for fishing with modern braided lines

Ever wanted to fish with braid that behaved like fluorocarbon? Sound like a pipe dream? Well think again - the W3 Finesse Crank-T 2nd Generation rods from Westin have a specially designed blank that compensates for the lack of stretch in braid. This is great news for crankbait fishing fans, who know all too well the benefits of the stretch and density that fluorocarbon line normally offers - now you have the best of both worlds - because Westin is nice like that. You can throw and work those crankbaits all day long and this rod will take it in its stride, but it also has a wonderfully sensitive feeling, thanks to the low weight and the split handle design, that always keeps you in touch with the blank. It is like a 'spidey sense' for your crankbait fishing! Just don't blame us if you get too used to how well it controls your fishing, it won't be like this with every rod!

The W3 Finesse T&C 2nd Generation rods (Texas & Carolina) are excellent rods for all kinds of predator fishing with both soft and hard lures. These rods are light and sensitive, but fast and powerful enough to set the hook in the hard, bony mouth of any predator! They are perfect for casting soft lures or slowly twitching a Texas or Carolina rig along the bottom. You can use them when pitching small hard lures in shallow water for perch and bass, or targeting trout and zander in deeper areas. W3 Finesse T&C 2nd Generation rods are great all-round tools for light and medium style predator fishing!

- Handle: Premium EVA handle
- D-Ring Hook Keeper

The W3 Finesse Ned 2nd has been especially designed for Ned and Finesse-fishing with soft lures on light jig heads, or when using Texas and Carolina-rigs, or Dropshot. The fast action and sensitive tip give the perfect feeling and control of the Nedworm - bites are transmitted instantly, allowing you to set the hook fast.

The white tip wrapping features an excellent contrast to the black colored blank and is a perfect bite indicator against dark water or a murky sky.

The elegant, custom-made rear handle provides a perfect grip and gives extra support for your underarm for maximum comfort and control, even on the longest days out on the water.

### W3 FRESHWATER RODS

## W|3 DROPSHOT 2<sup>ND</sup>

W|3

TORAYCA

- Reel Seat: SKS
- Guides: LS ring guides
- Blank: Torayca® High Performance Carbon fibers
- Premium grade EVA handle with rubber cork end cap
- Reinforced with 1k woven carbon
- Flat rear handle
- Custom made hook keeper

A sensitive Torayca® carbon blank with the backbone to set the hook and the power to tame big fish makes up the backbone of the W3 Dropshot 2nd Generation rods. The two-part SKS reel seat is extremely light and offers direct contact to the 1K woven carbon reinforced blank for maximum sensitivity. The blank is made with a super soft solid tip giving more feel and improved bite detection. The flat rear handle is designed to rest on the under arm during fishing for improved comfort and stability. Details like the unique hook keeper also make a big difference. When using a typical dropshot rig simply slide the line and tighten up to hold the dropshot sinker in place, eliminating tangles when moving between spots.

TORAYCA

sea:guide®  
PRECISION ROD COMPONENTS

- Reel seat: DPS
- Guides: Seaguide® MK+B
- Blank: Torayca® High Performance Carbon for superior action, casting, and strength
- Premium EVA foam handle
- Reinforced with 1K woven carbon
- Strong but sensitive fiberglass tip
- Luminous UV tip for bite detection at night

Haul in large, hard-fighting sturgeons with ease when you are using the W3 Powersturgeon 2nd Generation rods. The high performance Torayca® blank stands up to extreme loads without breaking, making it perfect for sturgeon fishing. Fiberglass tip enhances sensitivity for detecting light bites and the powerful butt section helps you move in monster fish. The rugged EVA handles balances the rod out nicely and provides a comfortable grip when battling those prehistoric bruisers. Designed specifically for sturgeon fishing together with danish sturgeon specialist Henrik Carl.

TORAYCA

sea:guide®  
PRECISION ROD COMPONENTS

- Reel Seat: Fuji® DPS
- Guides: Seaguide® XEG
- Blank: Torayca® High Performance Carbon for superior action
- Specially designed Comfort Cross Gimbal (CCG)
- Premium grade EVA handle
- Reinforced with 1K woven carbon

The W3 Boat 2nd has a practical three-section design that makes this rod 'spot on' for all kinds of travelling, no matter if the destination is a Norwegian sea fishing camp, or some tropical island. The second generation of W3 Boat rods have higher strength and sensitivity, thanks to the improved blank technology, and the incorporation of higher quality Torayca® carbon fibre. The Comfort Cross Gimbal is a great alternative to conventional 'stomach puncturing' metal or hard plastic gimbals. It fits perfectly into a fighting harness, and even without a harness landing a monster or two is no problem. The oval XEG guides are some of the toughest saltwater boat guides around and the Torayca® blank offers superior strength and great value for money.

- Blank: 24 / 30 tonne High Performance Carbon
- Handle: Premium EVA handle
- Custom made rubber non-slip bottom cap
- Hook keeper: Seaguide® Dhook

Designed for street fishing, but ideal anytime you need an ultralight rod for small hard and soft lures. Whether you target perch, canal-sized pike and zander, or saltwater critters, the Streetstick range has it covered. These steely, medium-fast action, blanks are ideal for throwing light lures accurately, whilst the sensitive tip indicates even the shyest of bites. With a range covering a wide range of weights and techniques, these are the rods to select for maximum fun fishing!

PRECISION ROD COMPONENTS

- Reel Seat: Seaguide® DPS
- Guides: Seaguide® SXEOG premium guides
- Blank: 24 / 30 tonne High Performance Carbon
- Specially designed Comfort Cross Gimbal (CCG)
- Premium grade EVA handle

Designed with strength and sensitivity in mind, the W2 Boat rods are designed for the rough-stuff, whether you are fishing a wreck for conger, dropping lures for halibut, or using light pilks for cod.

With the perfect action for hard fighting fish, yet with the balance to make fishing with heavy lures all day a walk in the park, these rods follow in a long tradition of Westin boat rods that are designed to get the job done! With actions and handle designs that have stood the test of time, let the W2 Boat rods take the strain. The 3 section design makes these rods perfect for traveling.

Packing plenty of punch, the W2 Spin range are designed to cover the full range of spoons, spinners and wobblers, when targeting both freshwater and coastal predators. The ultra-sensitive action of these rods enables you to feel every flutter and movement of the lure, whilst still delivering great casting performance. Built to Westin's legendary design standards, these are the ideal rods for coastal excursions for seatrout, freshwater trout and salmon fishing and perch, bass and zander, thanks to their versatility.

Introducing the top-notch W6 series of baitcasting reels, now proudly joining our lineup as the flagship model. Offering a variety of sizes, starting from 50 and progressing to 100, 200, 300, the new W6 reels are designed to cater to every style of predator fishing. Whether you prefer casting light lures, like softbaits and crankbaits, or need to handle medium to heavy baits, such as larger soft lures or jerkbaits, the W6 series provides exceptional versatility. Crafted with durability and strength as top priorities, these reels feature robust one-piece aluminium frames that ensure rigid and reliable performance. Specifically engineered to tackle various predatory species, including pike, bass, zander, perch, and even trout, the W6 series is built to conquer any target. Equipped with innovative features, such as the proprietary EZ-Load spooling system, Line View, Internal Centrifugal Brake (CBS6), and finely-tuned gear ratios, these reels deliver consistently smooth operation. With the freedom to choose your preferred gear ratio, choose the model that perfectly complements your fishing style. Experience the unmatched power, style, and versatility of the W6 series baitcasting reels. Designed to exceed expectations, these reels provide anglers with the ultimate tools to conquer any fishing situation. As the flagship model, the W6 series sets new standards with unparalleled performance and cutting-edge features that push the boundaries of what's possible in baitcasting reels.

- Available in sizes 50 ,100, 200 and 300
- Available in left and right handed version
- Aluminum frame and carbon sideplate
- Size 300 fully aluminum frame
- 10+1 Sealed Stainless Ball Bearings including
- Delivered with full carbon handle
- Non slip rubber handle knobs
- Available in high speed, middle speed and low speed gear
- 6 Shoe centrifugal brake
- Stay-On Sideplate
- Stay-On Tension knob
- Drag Clicker
- Fast Line Connector on the spool
- Delivered in a protective hard case
- Lubricated with 3 different types of grease
- Multi stack carbon drag
- GT-A gearing
- ION Frame coating
- Double anodized star drag

Introducing the W4 series of baitcasting reels - the perfect combination of power, style, performance, with an array of unique features. With a variety of sizes available, starting from 50 and progressing to 100, 200, and even 300, these reels cater to every style of predator fishing. Whether you prefer casting light lures, like softbaits and crankbaits, or need to handle medium to heavy baits, such as larger soft lures or jerkbaits, the W4 series offers exceptional versatility. Constructed with durability and strength in mind, these reels feature robust one-piece aluminium frames, ensuring rigid and reliable performance. Specially designed to tackle a wide range of predatory species, including pike, bass, zander, perch, and even trout. No matter the target, the W4 series is up to the challenge. Equipped with innovative features, such as the proprietary EZ-Load spooling system, Line View, Internal Centrifugal Brake (CBS6), and finely-tuned gear ratios, these reels deliver smooth and consistent operation, time after time. With the freedom to choose your preferred gear ratio, choose the model that perfectly complements your fishing style. Experience the power, style, and versatility of the W4 series baitcasting reels. These reels are built to exceed expectations, providing anglers with the tools they need to conquer any fishing situation.

The W10 Braided line has been developed for anglers seeking the ultimate braided line. Our innovative construction produces a line that combines maximum strength and abrasion resistance with a super-smooth surface. Constructed from premium Japanese Ultra High Molecular Polyethylene (UHMPE) fibers using a 13X (12+1) design with 12 carriers woven around a central CORE carrier to produce a supremely round line with improved strength compared to 8X braided lines. W10 braid uses an "Advanced Ultra High PIC" construction with 56 weaves per inch for a smoother surface and increased abrasion resistance. In addition, the tighter weave of "Advanced Ultra High PIC" gives the smoothest surface around for longer, more accurate, casts. Casting performance is further enhanced by a Dura-Coating gel process that gives the braid a smoother, hydrophobic surface, reducing water absorption and lowering friction. To achieve maximum color stability, W10 Braid is soaked in dye tanks before being oven cured to 'bake-in' the pigment and finally sealed by a dura-coat for improved longevity.

- High performance 13X braided line
- Premium Japanese UHMPE fibers
- Round profile
- CORE (12+1) – 12 carrier braided tight around a central CORE carrier to give a uniformly round line, with increased strength
- "Advanced Ultra High PIC" line construction with 56 weaves per inch giving higher abrasion resistance and a super-smooth surface
- Double Dura-Coating technology for excellent water repellence, a smoother surface, and lower friction, for longer, more accurate casting.
- Supreme color retention

The W10 Coastal Braided line has been developed for sea trout and saltwater anglers seeking the ultimate braided line. Our innovative construction produces a line that combines maximum strength and abrasion resistance with a super-smooth surface. Constructed from premium Japanese Ultra High Molecular Polyethylene (UHMPE) fibers using a 13X (12+1) design with 12 carriers woven around a central CORE carrier to produce a supremely round line with improved strength compared to 8X braided lines. W10 Coastal braid uses an "Advanced Ultra High PIC" construction with 56 weaves per inch for a smoother surface and increased abrasion resistance. In addition, the tighter weave of "Advanced Ultra High PIC" gives the smoothest surface around for longer, more accurate, casts. Sea trout and saltwater anglers demand a line with extra stiffness to avoid wind knots caused by casting repeatedly into often fierce onshore winds. To achieve this W10 Coastal features a Double Dura-Coating to give the line more rigidity. The Dura-Coating gel process that gives the braid a smoother, hydrophobic surface, reducing water absorption and lowering friction. To achieve maximum color stability, W10 Coastal is soaked in dye tanks before being oven cured to 'bake-in' the pigment and finally sealed by a double gel-coat for improved longevity.

- High performance 13X braided line - especially designed for sea trout and sea fishing in tough conditions
- Japanese premium UHMPE fibers
- Round profile
- CORE (12+1) – 12 carrier braided tight around a central CORE carrier to give a uniformly round line, with increased strength
- "Advanced Ultra High PIC" line construction with 56 weaves per inch giving higher abrasion resistance and a super-smooth surface
- Double Dura-Coating technology ensures a rigid and stiff line for less wind knots, with excellent water repellence, a smoother surface, and lower friction, for longer, more accurate casting.
- Supreme color retention

Achieving the perfect compliment of attributes in a braided line is a kind of alchemy that requires repeated refinement and testing to produce the finished article. W6 Braided line has been developed using a unique construction process for all-round lure fishing. We have utilised premium grade Japanese UHMPE (Ultra High Molecular Polyethylene) fibers in the construction of W6 Braid because of its incredible performance and strength. To achieve higher abrasion resistance and greater strength W6 braid is constructed using a weave specially developed for this line that we call "Advanced High PIC". This 8X (eight braid carriers) braided line has a 36 PIC construction (weaves per inch) that gives a stronger line for its diameter. In addition, the tighter weave of "Advanced High PIC" gives a smoother surface for longer, more accurate, casts. Casting performance is further enhanced by a Dura-Coating gel process that gives the braid a smoother, hydrophobic surface, reducing water absorption and lowering friction. To achieve color stability, W6 Braid is soaked in dye tanks before being oven cured to 'bake-in' the pigment and finally sealed by a dura-coat for improved longevity.

- Designed as an all-round 8X braided line for lure fishing
- Premium Japanese UHMPE fibers
- Round profile
- "Advanced High PIC" line construction, with 36 weaves per inch, gives higher abrasion resistance, a smoother surface, and greater strength
- Dura-Coating technology for excellent water repellence, a smoother surface, and lower friction, for longer, more accurate casting.
- Supreme color retention

- Designed as an allround 8X braided line for fishing
- Premium Japanese UHMPE fibers
- Round profile for better performance
- Construction of 32 weaves per inch
- Excellent color retention

Experience the unrivalled power of Westin's W3 DUTCH ORANGE 8 BRAID - the ultimate fishing line designed for passionate anglers. Available on 135m spools, 300m spools (larger diameters only) and bulk spools (all diameters), this line has the versatility for any fishing adventure. The smooth and round construction guarantees exceptional performance, giving smooth casts and precise control. The vibrant bright orange color enhances visibility, ensuring you never lose sight of your line. With high abrasion resistance and a PPI (Picks Per Inch) of 30, this braid confidently tackles the toughest fishing conditions. Elevate your fishing experience today, and witness the difference for yourself.

**3M** Scotchlite

**YKK**  
Little Puris. Big Difference.

- Material: PU Coated 189Tx320D Taslon, taped seams
- DS/EN ISO 12402-6 certified
- 8 practical pockets
- Integrated light weight brace system
- High-viz, yellow fold-in hood
- K-webbing 64/36 reenforcement on knees and backpart
- Integrated adjustable neoprene belt
- Adjustable knee straps
- Front pocket Water-resistant “easy grip” YKK zippers
- Flexible light weight foam
- 3M Scotchlite reflective tape
- 6 “easy to access” pocket
- 2 fleece insulated pockets
- Neoprene sleeve cuffs
- Double adjustable leg cuffs
- Perfectly fit designed for the typical Scandinavian build
- Radio/phone pocket on shoulder (not waterproof)
- Efficient mesh drain by the cuffs and ankles
- Extra high collar with soft padding for optimized wind protection
- New, improved YKK main zipper construction

This flotation suit is designed and developed with a single purpose – to create the ultimate flotation suit by all measures. From the very beginning the suit is designed to fit and meet the demands of the typical hardcore angler. Safety, durability, practical details and a close fit that still allows the wearer to move around freely are all important characteristics of this suit. All are characteristics that you will appreciate every time the weather turns bad. Upon request from several sea fishing camps we have made a new zipper design on this suit by using the best available YKK zipper and making sure no part of the fabric can get trapped. All of this is done because we know that if a flotation suit can stand extensive rental use, it will withstand anything!

DS/EN ISO 12402-6

- Material: PU Coated 210D Nylon with taped seams
- DS/EN ISO 12402-6 certified
- 9 practical pockets
- Integrated lightweight brace system
- High-viz, yellow fold-in hood with 180° view window panels
- 210D Nylon Ripstop re-enforcements on knees and back part
- Integrated "button fixed" belt
- Adjustable knee straps
- Chest pockets with water-resistant high-viz. yellow zipper
- Flexible lightweight foam
- Solas reflective tape with improved Zig-Zag stitching
- Easy access inner pocket by main zipper
- 2 fleece insulated pockets
- Neoprene sleeve cuffs
- Double adjustable leg hook and loop closure
- Radio/VHF pocket on left shoulder with size indication and window (not waterproof)
- DS/EN ISO 12402-8 certified whistle
- Locking loops for attachment of an inflatable vest
- Efficient mesh drain by the cuffs and ankles
- Extra high collar with soft fleece for optimized wind protection

The transparent 180° view window panels integrated in the hood, the extra high soft fleece collar and the easy access inner pocket are just some of the features anglers will appreciate on the W4 Flotation Suit. Quality and functionality were the main priorities when designing this suit, but of course our designers also took hard core fishing and sea angling into the equation. The brace will be highly appreciated on those calm, sunny days but it's when the going gets tough that important features like the very best waterproof materials, the right choice of buoyancy materials and a perfect fit really makes a difference.

Get suited up to fish all day in comfort with the W4 Winter Suit Extreme. Sub-freezing temps and cold winds have the tendency to put off a lot of anglers, but with the W4 Winter Suit Extreme you will stay warm and comfortable in even the worst conditions that the cold hearted winter can throw at you. Both jacket and pants are packed with all the functions and features demanded by die-hard anglers – warm, water- and wind-proof and with a breathable outer layer.

W|6 RAIN JACKET

W|6

- Toraydelfy® fabric waterproof: 10000mm breathability: 10000
- Material: 100% polyester
- YKK® front zipper
- Double flap closure over front zipper
- 2 side pockets with SBS® zippers
- Inner pocket with SBS® zipper
- Adjustable hood in high viz red color
- Double bottom chin closure
- Extra high collar with soft mesh in neck and chin for comfort
- Laser cut hook and loop closure
- Double hook and loop cuff closure

Don't let rain keep you from fishing. The Westin W6 Rain Jacket is 100% waterproof and completely seam-sealed, yet breathable and comfortable to wear all day on the water. Toraydelfy® waterproofing fabric keeps you dry while allowing air circulation, moisture-wicking and release of excess heat during activity. An extra high collar with double bottom chin closure on the jacket provides extra coverage, and the attached hood is ready for any sudden storm. This wearable and specialized jacket ensures you're able to take on any weather to chase fish.

**YKK**  
Little Parts. Big Difference.™

- **TORAYDELFFY® fabric Waterproof: 10.000mm Breathability: 10.000mvp**
- **Material: 100% polyester**
- **YKK Vislon 2-way front zipper**
- **Double front placket for extra water protection**
- **Two chest pockets with extra warm fleece lining**
- **Adjustable waist with hook and loop closure**
- **Large, zipped thigh pocket**
- **Reinforced knees and back with 600D polyester Oxford fabric**
- **Reinforced kick panels at bottoms of legs with durable and resistant fabric, 95% polyester, 5% spandex**
- **Ankle-to-knee leg zippers and adjustable leg openings**
- **Adjustable, elastic braces**
- **Spacious fit**

Beat the elements and keep fishing with the Westin W6 Rain Bib. These bibs have a spacious fit and can be worn with both base- and midlayer underneath. The high cut design with a double front placket keeps the wind and rain out, allowing you to concentrate on catching more fish. The 10K waterproof and 10K breathable Toraydelffy® material keeps you dry and comfortable, wicking moisture and heat away from the body during activity, no matter the conditions. High wear areas on the knees and back have been reinforced with Oxford fabric for extra durability, whilst kick panels have also been added to the lower leg for reduced wear. Store essentials safely in the zipped thigh pocket and give your hands respite from the cold in the fleece-lined chest pockets. With a tough YKK Vislon two-way front zipper and ankle-to-knee zippers with adjustable snap button closure, getting the bib on is a breeze. The adjustable waist gives the perfect fit every time and keeps out annoying chills. Fish more effectively for longer wearing this functionally designed angling apparel.

## W|4 JACKET

AVAILABLE  
NOW!

- **100% nylon Taslan Oxford fabric**
- **100% nylon Taslan rip-stop fabric**
- **15.000mm/5.000mvp**
- **Fully sealed seams**
- **Eco DWR Bionic finish®**
- **100% nylon lining**
- **Adjustable hood rolls up inside collar**
- **High, fleeced lined collar**
- **Large chest pockets with zippers**
- **Two lower, zipped pockets**
- **Strong 2-way center front zip**
- **Panels under the arms for optimal comfort**
- **Articulated, reinforced elbows**
- **Cuff adjustments with hook and loop**
- **Drawstring at hem**

Developed to keep you fishing efficiently and in comfort, no matter what the weather throws at you, the W4 Jacket utilises a combination of breathable (5,000mvp) and waterproof (15,000mm H/H) 2-layer Taslan Oxford and Rip-Stop materials that have been carefully chosen for maximum ease of movement and toughness. All seams have been fully taped sealed, and the Eco DWR Bionic finish helps the jacket shed water droplets fast. The high fleece-lined collar helps to eliminate annoying drafts on windy days, whilst the hood can be fully adjusted and stowed away inside the collar when not required. The two-way extra strong main zip is easy to use and keeps the elements out. The articulated reinforced elbows and under-arm panels improve arm mobility, an essential consideration when constantly casting and retrieving lures. Two cavernous zipped chest pockets are ideal for storing larger essentials, whilst the two lower zipped pockets are ideal for small items. Designed by anglers for anglers, make sure you are fishing in comfort and style with the W4 Jacket wearing this functionally designed angling apparel.

Made in Denmark

B01-685-057

B01-685-079

- 10 year guarantee covering manufacturing defects
- Materials: Base 100% Polypropylene (PP) / Lid 100% Polycarbonate (PC)
- Removable inserts
- U-profile lid keeps content in place
- Suitable for both soft and hard lures
- Stackable
- For fresh and saltwater use
- Extremely durable
- Made in Denmark

If you are looking for one of the strongest and most durable tackle boxes ever seen in fishing then look no further! The W6 Lure Vaults are designed to stand the test of time. Stay organised with the included inserts, suitable for both soft and hard lures. Customise the boxes just the way you want them by arranging the inserts. If you want to use bigger lures up to 30cm simply remove the inserts and use the box as your “Game” box. Find your lures fast, thanks to the crystal clear lids that are made from impact-resistant Polycarbonate. The U-profiles inside the lid keep the contents 100% in place during transport. The base is made of highest quality Polypropylene and every box is fitted with sliding locks, a carry handle and highly durable hinges made of high-quality plastic.

# WESTIN TACKLE BOX SYSTEM

At Westin we develop products designed by anglers for anglers. Our tackle boxes are available in a range of different configurations to suit every angler. To ensure you choose the right box we use the following system to easily identify each layout.

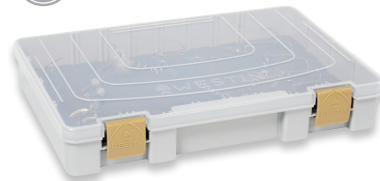

- **S1:** A tackle box with no dividers. A Game Box. Ideal for packs of small lures, terminal tackle, and hooks, as well as large loose lures.
- **S2:** A tackle box with three fixed compartments supplied with a set of dividers to customise the layout of the full length compartment.
- **S3:** A tackle box with one large, fixed compartment and a removable divider that can be used to separate one-quarter of the box.
- **S4:** A tackle box with three full length compartments and a set of dividers to customise the layout of the full length compartments.
- **S5:** Single, full size compartment and supplied with front-to-back dividers enabling the box to be customised with up to four compartments.
- **S6:** A tackle box with four front-to-back fixed walls, dividing the box into four compartments.
- **S7:** A tackle box with three fixed compartments in the front third and two fixed full length compartments with dividers.
- **S8:** A tackle box with four front-to-back horizontal fixed walls, dividing the box into four compartments.

# W|3 WP TACKLE BOX

W|3

- S7 box configuration
- Produced with ABS latches and PP material for the box and lid
- Waterproof design with a silicon seal ring
- Ideal for storing small soft lures in liquid attractors
- Clear lid for easy overview

Westin's W3 waterproof tackle box is the answer for dry storage of your fishing supplies on the boat or near water. The tackle box features a water-resistant rubber seal on the inside of the hinged lid, which keeps water out. Flavoured lures in liquid can also be stored in this box without leakage into your boat, bag, or car. This box is an S7 model with three fixed compartments in the front third and two fixed full length compartments with six dividers.

B09-S8-025	W3 LURE BOX DOUBLE SIDED	28.5 X 19 X 5 CM	1

Achieve the perfect organisation of your hard lures with these amazing double-sided lure boxes. Incredibly strong and durable, these double-sided lure boxes feature strong hinges and secure lids to keep your lures safe. The built-in drainage holes allow air to circulate, helping wet lures to dry out after use. Whilst the two-sided design is perfect for storing large lures with treble hooks. Choose from two sizes to fit your needs. Upgrade your fishing gear with these reliable and convenient lure boxes.

AVAILABLE  
01.01.2024

- Hinges produced from POM material for extra durability
- Lid and base produced from 100% PP material

- Water resistant materials
- Can be worn as backpack or sling bag
- Hook and loop closure tool strap
- 2 hook and loop closure straps for extra rod or landing net
- 2 large D-rings
- Carry handle and removable straps
- Padded back for increased comfort
- Oversized zipper

The W3 Street Bag Pro will be your best friend. This bag comes with removable backpack straps, hook and loop closure straps for rods and tools and also includes lure boxes. The placement of the lure boxes enables a fast access to your favorite lure.

CODE	MODEL	SIZE	COLOR	CT
A103-389-M	W3 STREET BAG PRO (3 BOXES)	MEDIUM	GREY/BLACK	4

## W|3 LEG BAG

W|3

- 30 x 21 x 7 cm
- Material: 660D/210D Diamond Pattern Polyester with coating
- One lure box (20 x 14 x 4 cm)
- Three pockets
- Adjustable waist and leg strap
- One clip to attach accessories
- One hook and loop closure tool strap
- Padded back for comfortable carrying
- Oversized zipper

The W3 Leg Bag is ideal for bank fishing and street fishing. Thanks to the strap attachment around the waist and leg the W3 Leg Bag gives more movement and reduces pressure on your shoulders compared to a regular backpack. The W3 Leg Bag swallows all you need - it features three pockets, one lure box, a hook and loop closure tool strap and a clip to attach your accessories. The padded back means it is comfortable to carry all day long.

CODE	MODEL	SIZE	COLOR	CT
A121-389-M	W3 LEG BAG	MEDIUM	GREY/BLACK	4

## W|3 WAIST PACK

W|3

- 1 lure box (16 x 9 x 4cm) + 3 lure boxes (27 x 18 x 4cm) included
- Water resistant materials
- Hook and loop closure tool strap
- Quick magnetic opening system in head compartment
- 1 large padded front pocket
- 2 side pockets
- 1 large mesh pocket
- Carry handle and adjustable waist strap
- Oversized zipper

Place it around your waist and keep all your fishing gear close to you. The W3 Waist Pack includes lure boxes and the main compartment has a quick and easy magnetic opening system. This bag features several pockets, a hook and loop closure tool strap and a large mesh pocket inside the bag.

CODE	MODEL	SIZE	COLOR	CT
A105-389-L	W3 WAIST PACK (4 BOXES)	LARGE	GREY/BLACK	4

## W|3 STREET SLING

W|3

- 52 x 21 x 6 cm
- Material: 660D/210D Diamond Pattern Polyester with coating
- 1 lure box (27 x 18 x 4cm) included
- Water resistant materials
- Tool strap and quick clip
- 1 small D-ring
- Padded pocket
- Adjustable shoulder strap
- Padded back for increased comfort
- Oversized zipper

Let the W3 Street Sling hang on your back and slide it over when it is time for a lure change. Thanks to the folding system - the lure box will stay in place and you can put all your effort in choosing the right lure. This bag has a D-ring to attach your accessories, a tool strap and quick clip. Inside the W3 Street Sling you will find a large mesh pocket.

A deadly bait for lethargic bass looking for an easy meal, the Westin CreCraw is part crawfish, part creature bait. Up top, its swimming claws move independently of one another, and start creating action as soon as the bait hits the water. Meanwhile, fluttering tentacles and legs create a lifelike action teasing bass into a big bite. Its wide profile ensure the CreCraw swims predictably in the water, avoiding unwanted rotation, while hook slots in the back and belly make rigging a breeze. The CreCraw takes American action cues and combines them with Scandinavian lure design in one of Westin's most detailed soft plastics to date.

- Free from toxic phthalates
- Anise scent
- Weedless design
- Swimming claws
- Tentacles and cylinder-shaped legs
- Hook slots in the back and belly for EWG/worm and offset hooks, T&C rigging and normal jigheads
- Perfect for jigging, punching, flipping and more
- Stable action thanks to a wide design and swimming claws

- Super elastic and strong TPR
- Floating
- Salt-infused body for perfect balance
- Tapered shape for life-like movement
- Fish catching scent
- Do not store TPR with other lures

The Westin Ned Worm will conjure up fish on even the slowest days, bringing success when all else fails. This long-lasting lure is made of a super-elastic, floating and strong TPR. Its tapered design gives life-like tail movement that responds to every movement of the rod tip. The salt-infused body gives the Ned Worm the perfect buoyancy and realistic stand-up lure action to perfectly imitate a feeding or wounded prey on the bottom. To make this lure even better we added an irresistible scent. The Westin Ned Worm can be rigged in numerous ways. Try it on a Ned rig, Dropshot, or rigged Wacky-style.

## NED WORM CURL

**DARK WATER MIX 7**  
P187-709-014

**CLEAR WATER MIX 7**  
P187-710-014

- Super-elastic and strong TPE material
- Floating
- Can be rigged weedless
- Fish catching scent

- Slim profile for increased hook-up ratio
- Curl tail with hollow cylindrical chamber
- Do not store TPE with other lures

Worms catch fish and the Ned Worm Curl combines the slim body of a worm with a thin curl tail that creates a kicking, twisting action that drives fish crazy. We have also added a hollow cylindrical chamber at the end of the tail that helps the tail stand up, and produces small air bubbles when the lure is moved. The hollow chamber creates a unique irregular movement in the tail. It also acts as a trigger point that flutters around enticing fish to bite when the lure is on the bottom. The Ned Worm Curl is super-elastic and soft, yet extremely durable. The buoyant TPE formula ensures it always stands up from the bottom - the key to success on tricky days. Rig the Ned Worm Curl on a Ned rig, jig head, EWG / worm, or offset hook. It will swim on a steady retrieve, on the drop, or crawled along the bottom, making it incredibly versatile for perch, bass and other predatory fish.

- Free from toxic phthalates
- Weedless design
- Hook slots in the back
- Fish catching scent
- Slim profile for increased hook-up ratio

Imagine if you could combine the effectiveness of a paddle tail into a curl tail bait? The Swimming Worm perfects this combination creating an awesome swimming worm-style bait that are the go-to for many US Bass Anglers. The tempting Swimming Worm has been especially designed to cover a lot of water on tricky days. Swim it in mid-water or through grass, crawl it along the bottom, or jig it in and around structure. The Swimming Worm was developed especially for medium to fast retrieve speeds to cover lots of ground quickly. The lure material gives the perfect combination of softness and durability. Rig the Swimming Worm on an EWG / worm, or offset hook for weedless presentations and fish it on a Texas / Carolina rig, or a traditional jig head.

BAITFISH GHOST P073-738-035 20 cm

Based upon the legendary TwinTeez, the TwinTeez Pelagic brings a new dimension to pelagic vertical fishing. The big seductive outline and fluttering fins create a realistic silhouette that big predators cannot resist. Tiny movements set the fins moving enticingly, just like a real bait fish. Thanks to the two jointed segments in the lower back and the large V-tail even the smallest twitch creates a mesmerising action. Fish the TwinTeez Pelagic with gentle shakes and twitches. On difficult, highly

pressured, venues barely moving the lure can be the secret to catching wary fish. Although especially designed for vertical pelagic fishing for big zander and pike, in testing this lure was just as successful when fished on the retrieve or jigged along the bottom. Choose the TwinTeez Pelagic when specimen predators are your target. For the most realistic presentation rig it with our ShadTeez ScrewIn Head, or a jig head of your choice. For spooky fish we recommend using an additional stinger.

# SHADTEEZ SCREW IN HEAD

NEW!

AVAILABLE NOW!

NATURAL P072-287-011 70 g

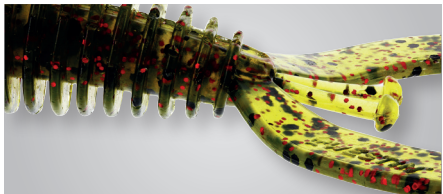

- Material: Lead
- Screw with center pin
- Top and belly stinger eyelet, full wire through body construction
- Big realistic eyes

CODE	MODEL	WEIGHT	CT
P072-287-011	SHADTEEZ SCREW IN HEAD	70 G	4

## LURE AND STINGER NOT INCLUDED

We decapitated our legendary ShadTeez to create the ShadTeez Screw In Head. Specially designed for pelagic fishing, vertical or casting where you need to be precise and at the right depth within seconds. Screw the head onto your favorite soft lure. We recommend trimming or cutting a piece of the soft lure to ensure perfect fit and the most realistic presentation. Place your stinger on the additional belly- or top eyelet depending on how you fish.

The RingCraw combines a fantastic action with great water displacement, enticing crawfish profile, and anise scent attractant. Jig it or rig it and hold on tight! You'll have the bass, perch and other crawfish loving predators fighting over this bait. Infused with a tasty dose of salt in the belly that causes fish to bite and not let go, but also gives the bait a balanced swimming action. The RingCraw features a stocky deep-ribbed body and double curltails with paddle tips for consistent, subtle action even at very slow speeds, and open ribs on the back for streamlined rigging. Westin's level of detail is unmatched in this bait. The profile and action will attract plenty of attention, even in heavy cover.

The Bullteez Curltail, the name says it all. A combination of the Bullteez and a curltail. This lure is the perfect complement to the well-known big fish magnet the Bullteez Shadtail. With its rolling action and fluttering curltail, this lure seduces even the trickiest fish to attack. Retrieve your Bullteez Curltail super-slow in deep water, or speed it up and fish it fast over shallow weeds. This is the perfect choice for predators such as pike, perch, and zander. The Bullteez Curltail can easily be fished with shallow rigs, or right down in the depths with a regular jig head. For a weedless presentation with an offset hook we have equipped the Bullteez Curltail with slots in belly and back. Perfect for fishing round structure and through weeds!

## ORIGINAL PERCH SHADTAIL

TOMY'S BAIT

HANDMADE LURES

Life-like lures in all shapes and sizes have been popular for decades, yet few have ever come close to those handmade by Tomy's Bait. Now, we are pleased to announce that Westin have partnered with Tomy to make his Original Perch lure design available globally.

A lifetime's fascination with fish has given Tomy an unrivalled understanding of their behaviour. From keeping fish in aquariums, to scuba diving with wild fish, to fishing for them, Tomy became obsessed with developing artificial baits that better mimicked the natural food of predatory fish.

First created in 2015, Tomy's Original Perch is perhaps his most famous lure. Developed to mimic a small perch, which is in most venues, an important part of the diet of predatory fish. The Original Perch exemplifies Tomy's attention to detail in the search for the most life-like design possible. Pushing the boundaries of hand-made lure design through continual development, the Original Perch is now at the pinnacle of lure design.

The dynamic shape of the Original Perch was later refined with external fins to give a more life-like appearance. Combined with the incredibly realistic hand painted finish, the Original Perch proved irresistible to predatory fish from the start, and its reputation has grown internationally as the designed has developed and been adopted by lure anglers 'in the know'.

The upward turned design of the paddle tail on the Original Perch has become a signature feature in Tomy's lures, and gives these lures a unique action. Not only does the tail design give the lure a unique and realistic movement, but it also beats at slow speeds, including whilst free-falling when the retrieve is paused. Fished on either a steady or slightly erratic retrieve, the Original Perch has a super-effective action for all predatory fish.

The stickleback is the fatty and protein packed snack of choice for a wide range of toothy predator fish – and now you can fish one thanks to Westin. Stanley the Stickleback soft lure is a 3D scan of the real thing and can be fished comfortably in both saltwater and freshwater. Made from a super soft and flexible plastic, Stanley is just at home on a light traditional jighead or on a dropshot rig – he's not fussy, but he is tempting! Predators of all shapes and sizes will be attracted to its erratic swimming action, paddle tail, active eyes and hand painted color details.

- Optimized flexibility
- Realistic eyes
- Easy action shad tail
- High body profile with great belly flash
- Hand painted detailed colors
- Blister pack

Watch your speed with this incarnation of Ricky the Roach – the shorter tail allows a smooth and slow glide through the water, while the big shad tail offers a faster and more erratic action. Whatever you choose, this lure bursts into action as soon as it hits the water and has a tight rolling body action. It looks just like a real roach – in fact, some coarse fisherman would be happy to catch this little guy, so the predators will love to eat him. Perfected for jigging and casting for predators like perch, zander and pike.

**BAITFISH** P150-017-021 15 cm

**BAIT PEARL** P150-474-021 15 cm

Kick-start your predator fishing with the Westin KickTeez Shadtail – a super effective soft lure that is so easy to rig, it almost makes fishing too easy. The lure features a unique inner channel for both jighead hook and stinger which gives you added stealth and a far more natural presentation and swimming action. The lure also features a vertical hole that goes from the back and through the belly, the KickTeez will easily bend when the fish strikes, ensuring better hook-ups! It swims brilliantly in any water, still or fast current. Zander, pike, perch and sea bass won't be able to resist this amazing looking lure and they won't be able to let go once they bite down on the well-concealed stinger. Fishing a soft lure couldn't be easier, or more deadly!

- Easy to rig jig-hook notch
- Unique stinger channel
- Vertical hole from back through belly
- Improved hook up
- Realistic eyes
- Natural swimming action due to special curved shadtail
- Works in stillwater as well as strong current, the tail will not twist
- Can be used for different jigging techniques from bank or boat

- Optimized flexibility
- Realistic Eyes
- Life-Like Lure
- Easy action paddle tail
- Hand painted detailed colors

Based on the hugely successful Westin Hypoteez, this new version of one of our most popular soft lures features an extremely life like, tight and erratic swimming action thanks, in part, to its extra inch in length. The lure can easily be fished close to the surface when shallow rigged, or right down in the depths with a jighead. Its impressively realistic fins and belly fins may fool you into thinking you're fishing livebait – and the predators too, they won't be able to resist.

Want to catch a big one? Then the BullTeez is the ultimate choice for big predators like pike, zander and perch. The shad tail in combination with a slender wrist creates a seducing wriggling and belly-flashing action – even at low speed. Just this wriggling movement attracts and fools the really big fish into attacking the lure. BullTeez can easily be fished with shallow rigs or right down in the depths with a regular jig head. For weedless presentation with a big offset hook we have equipped the BullTeez with slots on belly and back. Perfect for fishing into the reeds!

We have combined the shape of the legendary ShadTeez and ShadTeez Slim to create the ShadTeez Hollow. Look carefully and you will notice that this is no ordinary lure. The large air chamber, combined with the holes in the flanks, creates a lure that folds easily – giving a much higher hook-up ratio than a solid-bodied lure. Perch and zander anglers will especially appreciate how easily it folds, getting the lure in the perfect position in the mouth. You will hook more fish than the guy next to you, that's for sure. The holes in the sides of the lure also allow water to flow through the body, creating a new dimension of fish-attracting turbulence for the first time in a ShadTeez. Want to rig this lure weedless? No problem. With hook slots in the back and belly you can hide the hook,

and fish this lure through dense cover, yet as soon as a fish bites down it's game-on! The solid head of the lure gives a firm grip point for your hook, keeping it in the optimal position for more hook-ups, cast after cast. Fish the ShadTeez Hollow on a normal jighead, or a dropshot. On a Ned Head the lure comes to rest at the perfect angle on the bottom, imitating a feeding bait fish. Fish the ShadTeez Hollow fast or slow, the lure will track perfectly no matter the speed. Want to go really slow? With its slim tail, paired with the soft and optimised body design, this lure will keep swimming with just the slowest of retrieves. ShadTeez Hollow – The game is about to change.

Puts other shads in the shadow, ShadTeez is perfected down to the smallest detail. The deep body, slender wrist and wide tail create a rolling, belly-flashing swimming action - even at low speed, which leaves big predators spell-bound. It's perfected for jigging, spinning and vertical fishing. By imitating a mildly wounded panicking fish, you'll find your personal best attached to your line in no time at all!

## SHADTEEZ SLIM V2 SHADTAIL

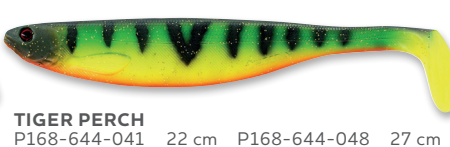

The legendary ShadTeez Slim just got better. This stunning big fellow puts other shads in its shadow. So perfectly detailed in every way! The deep body, slender wrist and wide tail create a rolling, belly-flashing swimming action that leaves big predators spellbound. Shallow-rigged and bumbled slowly past brackish reed beds, or deep-rigged it is imitating a mildly wounded panicking fish, you will find your personal best attached to your line in no time at all!

- Free from toxic phthalates
- Optimized flexibility
- Realistic Eyes
- Easy action paddle tail
- High body design with great belly flash

## FREDDY THE FROG WAKEBAIT

- Material: ABS plastic
- Topwater lure
- Ultra sharp carbon steel hooks
- Belly treble hook: #1/0 (18.5 cm)
- Customized and reinforced single hook in tail for improved hook up ratio
- Additional belly eyelet for change of hook position
- Body length: 6 cm
- Total length: 13 cm
- Ultra Sonic Glass Rattle inside
- Single joint body
- Multi jointed kicking legs
- Hand painted detailed colors

In France, frog legs are a delicacy – on our latest lure creation, they are a work of art! Freddy the Frog comes hopping onto the scene as your new favourite topwater bait, with a crazy, crawling action and those free-moving, jointed legs that will stir curiosity in the most cautious of predator fish. His sexy moves on the surface are complemented by a glass rattle stick with internal steel balls that announce to every predator within the vicinity that frog is back on the menu. Just a simple cast-and retrieve method will bring some incredible surface action – we spent a long time perfecting the action of this lure and then perfected the lure with a great hook-up ratio and a range of realistic and detailed colors and patterns. Freddy is ready to take on the big predators of any water.

## SPOT-ON TWIN TURBO PROPBAIT

U.S. Design Patent Application Serial No. 29/771,694  
EU Design Registration No. 008442321  
UK Design Registration No. 6120627  
Norwegian Design Registration No. 086992

- Design Patent
- Lead free construction
- Made from super-strong ABS plastic
- Ultra-sharp and strong carbon steel hooks
- Realistic eyes
- Semi-Soft folding propeller blades
- Counter-rotating propeller blades always keep the bait balanced

- Foiled inner body on selected colors for a 3D look
- Elevated ribs to create extra turbulence
- Long and accurate casting design
- Low frequency knocking sound
- Hand painted detailed colors

The Spot-On Twin Turbo really exceeded our expectations. This powerful topwater bait has a unique patented design that makes it irresistible to surface-feeding predators. The wide profile and life-like fish-patterned body, paired with realistic eyes, makes this a hard target for bass, snook, perch, redfish and sea bass to resist. The wide head creates a wake on the surface, whilst the twin propellers move independently of each other, one running clockwise, the other counterclockwise, to create unique fish-attracting sound. Combined with the low-frequency internal sound chamber, the Spot-On Twin Turbo announces its presence like no other lure. Super easy to fish, it pops whatever speed you retrieve. Because the twin propeller blades turn in opposing directions the lure keeps its stability, no matter how fast or slow you retrieve it. The super tough semi-soft propellers fold flat against the body when casting, creating less resistance, giving longer and more accurate casts. Then, when a fish bites down, the propellers fold giving better hook-ups. Pause the retrieve and the Spot-On Twin Turbo sits tail-down, the ultra-sharp hooks at the ready for any predator that strikes. The design of the Spot-On Twin Turbo is so unique that it is protected by a Design Patent.

The original Westin Swim Glidebait is a well established favorite amongst the pro guides, who are confident that all of their clients can easily cast and catch fish with it – it's as simple as that! You can fish this multi-purpose bait with "pull and wind" or on a steady retrieve, slow or fast, to create the action of a wounded, panicking baitfish and the panic can be increased with faster retrieves and regular pauses. As soon as the reel starts turning the unique S-curve swimming action of the Westin Swim will give you the very best odds. A wide selection of sizes, sink rates and proven colors makes the Swim a versatile fish-catching machine. Westin Swim – your secret weapon.

P032-551-007

**CRAZY FIRETIGER**  
P032-063-007

**REAL RUDD**  
P032-552-007

This little hard nut takes on the toughest predators and wins every time. Small, but perfectly proportioned, and so realistic even a mother roach could love it. Little Ricky differs from his bigger, hybrid brother in that it's hard through-and-through, with four reticulated joints to get him swimming in that tantalising Westin S-shape. It's stunning when spin fishing – just twitch it with regular stops to create an irregular action, get those joints clacking and bring in those hungry predators. Comes in several irresistible colors, from realistic to the sharper, brighter trigger colors, all hand painted down to the smallest detail.

- **Material:** ABS plastic
- **Lead free construction**
- **Carbon steel hooks**
- **Hook size:** #10
- **Running depth:** 0-1 m
- **Multi Jointed**
- **Hand painted detailed colors**

## PERCY THE PERCH CRANKBAIT

**BLING PERCH** P039-023-012

**DULL PERCH** P039-087-012

**FANCY FIRETIGER** P039-094-012

Small yet mighty – Percy the Perch's harder brother is a big fish catcher with a serious attitude problem. Designed to be a near perfect copy of the real thing, Percy has a fantastic swimming action that is so good, it will probably scare the life out of smaller silver fish in the area as well as attract the larger predators looking to make the hunter become the hunted. The lure has a sharp and aggressive swimming style, which perfectly mimics a perch and also creates disturbance in the water to attract the attention of hungry monsters.

- **Material:** ABS Plastic
- **Lead free**
- **Running Depth:** 0,5 – 2 m
- **Ultra sharp and strong treble hooks**
- **Full wire-through body construction**
- **Life-Like Lure**
- **Ultra Sonic rattle balls**
- **Integrated long cast system**
- **Hand painted detailed colors**

### HARD LURES CRANKBAITS

## MIKE THE PIKE CRANKBAIT

**CRAZY FIRETIGER** P040-063-020

**METAL PIKE** P040-145-020

**PIKE** P040-169-020

Get ready for an explosion from below as big predators rise to smash the floating Mike the Pike hard lure – arguably one of the most realistic pike imitation hard lures ever created. This lure has got the attitude to take on the biggest predators out there. Mike has a super aggressive rolling action and is ideal for both casting and for trolling. It sits high in the water, just screaming out to pike and other predators that an easy meal is in the area. Made in sizes and colors to attract the big mothers, this lure is great for typical, shallow pike waters.

- **Material:** ABS Plastic
- **Lead free**
- **Running Depth:** 0,5 – 2 m
- **Ultra sharp and strong treble hooks**
- **Full wire-through body construction**
- **Life-Like Lure**

### JÄTTE 17 CM

The Famous “Westin roll” – the unique rolling movement of these predator lures – is the trademark of Westin Jätte. It has an almost magical effect on pike that seem to ignore other lures. Days and years of carving, adjusting and testing was used when the Westin family created their first lures with this superior rolling action. For many years the 17 cm Westin Jätte has been a “must” in the lure box selection of any Scandinavian big pike hunter. It is perfect for depths between 2 and 4 meters and it has exactly the same “Westin roll” as the first lures created many years ago.

- **Running Depth:** 2-4 m / 2-6 m
- **Full wire-through-body construction**

### JÄTTE 23 CM

This old legend needs no further explanation. In Scandinavian mythology a Jätte is a giant. This old giant wobblers has always been one of the most consistent big pike catchers, as well as one of the most popular lures in many parts of Scandinavia. It is the perfect big fish trolling lure and through the years Westin Jätte has accounted for a staggering amount of 10 kg + pike.

## BASSBITE SQUAREBILL

- Lead free
- Japanese ABS Plastic
- Ultra sharp and strong carbon steel hooks
- Realistic eyes
- Foiled inside on selected colors for a 3D look
- Low frequency single knocking sound
- Hand painted detailed colors
- Tight, aggressive swimming action
- Running depth 1-2 m

Whether you're fishing around rocks, stumps or another form of submerged cover, this floating squarebill crankbait is your ticket to catching aggressive bass who are chasing bait. BassBite squarebill is a totally unique design created together with some of the best bass fishermen in America. BassBite features a tight, aggressive swimming action that remains stable at slow and fast retrieves. This hand-painted beauty comes in a range of detailed colors and features a low frequency single knocking sound that bass can hear at distance.

## BABYBITE SR CRANKBAIT

- Material: ABS plastic
- Lead free
- #6 carbon steel hooks
- Running depth: 1-2 m
- Ultra Sonic rattle balls
- Fat profile
- Hand painted detailed colors

This chunky little guy is like a snack-size candy bar for perch and bass. Both shallow runner (SR) and deep runner (DR) versions of Baby Bite have very tight swimming actions with just enough craziness to attract even the weariest of hungry predators. The well-tested, low density of the lure means that it stays in the right strike zone longer when you perform a spin-stop retrieve, however it is equally effective with a straight retrieve. This cute little baby will cause chaos as soon as it hits the water - in fact, you may even make a few perch cry, because catching them is just too easy with Baby Bite!

This chunky little guy is like a snack-size candy bar for perch and bass. Both shallow runner (SR) and deep runner (DR) versions of Baby Bite have very tight swimming actions with just enough craziness to attract even the weariest of hungry predators. The well-tested, low density of the lure means that it stays in the right strike zone longer when you perform a spin-stop retrieve, however it is equally effective with a straight retrieve. This cute little baby will cause chaos as soon as it hits the water - in fact, you may even make a few perch cry, because catching them is just too easy with Baby Bite!

The MegaBite Deep Runner is your new deep-diving buddy - a perfect snack for a wide range of predatory species like perch, zander, bass, and pike. This crankbait has a wide aggressive swimming action, and a big lip that takes it quickly down through the water column. During spin-stops the MegaBite DR wobbles towards the surface due to its large body-construction with air chambers inside. This allows long spin stops, which often trigger strikes, or enable it to be bounced along the bottom.

## FATBITE CRANKBAIT

- Material: ABS plastic
- Lead free
- Ultra sharp and strong treble hooks
- Running depth: 0.3-0,8 m
- Ultra Sonic rattle balls
- Fat profile
- Hand painted detailed colors

He's fat, he's grumpy and he's about to get bitten – FatBite is the ideal shallow running hard bait for a wide variety of species. Perch, bass, pike and trout will be queuing round the block to sink their teeth into this little fatty, thanks to a large profile and a violent rolling and shaking action. He's also a lure who wants everyone to know how grumpy he is – internal ultra sonic rattles make a big disturbance. This lure comes into its own on shallow waters, smaller ponds and canals and quickly charges to the surface when carrying out a spin-stop.

## BUZZBITE SR CRANKBAIT

AVAILABLE NOW!

- Material: ABS plastic
- Lead free
- Tight aggressive swimming action
- Ultra-sharp carbon steel hooks
- Realistic eyes
- Hand painted detailed colors
- Running depth: 0-1 m

The deadly BuzzBite Shallow Runner is one of the hottest crankbaits to hit perch fishing in a long time. All the key features are here – a tight wobble, shallow running, a highly detailed design, quality components, and realistic eyes. Its buoyancy allows you to pause the retrieve and let the lure ascend slowly towards the surface, increasing its appeal to wary fish. Almost silent, with a high-frequency vibrating action that adds to the fish-catching attraction. Proven to catch big, wary perch time and time again! Designed for perch and trout fishing, but equally deadly for other species.

The deadly BuzzBite are some of the hottest crankbaits to hit perch fishing in a long time. All the key features are here – a tight wobble, quick-diving without pulling hard, a highly detailed design, quality components, and realistic eyes. Its neutral buoyancy allows you to pause your retrieve and let

the lure suspend in position, increasing its appeal to wary fish. Almost silent with a high-frequency rattling action adds to the fish-catching attraction. Monster perch will practically be throwing themselves at your bait! Designed for perch and trout fishing but equally deadly for zander and pike.

The deadly BuzzBite Deep Runner is one of the hottest crankbaits to hit perch fishing in a long time. All the key features are here – a tight wobble, a highly detailed design, quality components, realistic eyes and deep running. The BuzzBite Deep Runner is the perfect choice when fish are holding close to the bottom, or pelagic hunting over deep water. This lure

is almost silent, with a high-frequency rattling action that adds to the fish-catching attraction. The BuzzBite Deep Runner has the perfect combination of features for monster perch! Designed for perch fishing, but in testing it has proven just as deadly for zander and pike.

Our super-effective RawBite hard lure has a little brother - the 7cm version of this killer lure has a tight and erratic action that makes it perfect for triggering the intrigue of perch. This wee version of a classically styled lure is hand-painted in a variety of realistic and 'far out' color op-

tions giving you plenty of choice. He may be smaller than his brother, but this RawBite is a grumpy and aggressive little fellow with bags of attitude and perch-catching prowess.

RawBite has a tight vibrating wobbler action that drives predators wild! Its chubby little profile looks like a nice easy snack as it limps and twitches out of the gloom, and up close, its ultrasonic siren song makes them open their mouths in awe and take the bite that seals their fate. Perfect for trolling or casting for big, nasty pike, zander and other predators, the RawBite sports an integrated long cast system, where the steel ball moves to the tail to aid long casting and settles back into the belly when it starts to fish, to give it an irresistible swimming action.

Adding to our "Bite" range an absolutely tremendous Jerkbait that we simply had to call "Jerkbite". This bait took a full two years to perfect and the result speaks for itself. Designed to be fished as a jerkbait / twitchbait in any conditions. Fish it fast and aggressively jerking your rod with short or longer pauses, depending on the mood of the fish. During the colder months fish the Jerkbite with longer pauses between each twitch. Even on a steady retrieve you get a fantastic action out from this slim bait. The key to the strike are those pauses when the lure stays right in the

strike zone thanks to the perfect balanced suspending action. This bait will clean up when everything else fails. Jerkbite features our integrated long cast system where two steel balls drops into the tail when casting and settle in the belly on the retrieve. This system ensures long and accurate casts and adds to the extremely effective darting action - just like a panicking baitfish. The Jerkbite is made from the finest materials with the strongest, sharpest hooks, and is ready for action whatever the predator you seek.

The big brother of the Jerkbite family. Fish this lure as a jerkbait / twitchbait in shallow water, or on a slow and steady retrieve just below the surface. Even on a steady retrieve you get a fantastic action out from this bait. Jerkbite SR 13,5cm features our integrated long cast system where

two steel balls drops into the tail when casting and settle in the belly on the retrieve. This system ensures long and accurate casts and adds to the extremely effective darting action - just like a panicking baitfish. Use it for big bass, zander during night, pike and other predators.

Inspired by the famous Westin Platypus lure - loved (and hated) by big predators worldwide, this little beauty is so detailed that Mother Nature herself is taking notes! With an integrated long cast system - the two steel balls drops into the tail when casting to help you launch it to the horizon, and settles into the belly when swimming to draw those big,

confused predators in. With its erratic swimming action, it will get right up the nose of the biggest perch, zander, pike and bass - triggering an angry snap just because it's there - and whenever you stop the retrieve, it stays right there in the strike zone, driving them wild with anger!

# PLATYPUS CRANKBAIT

- Material: ABS plastic
- Lead free construction
- Ultra sharp and strong treble hooks
- Running depth: 1-3 m (16 cm), 1-6 m (19 cm) 2-7 m (22 cm)
- Ultra Sonic rattle ball
- Full wire-through-body construction

The Platypus lures designed by Scandinavian lure maker Allan Christiansen have become Scandinavia's leading big pike lures in no time. Numerous requests from pike specialists made us design slow rising, low floating models. When constructing these, a lot of attention was put into achieving the correct buoyancy. At a stop in the retrieve, these Platypus lures will hang and slowly rise in the water – an extremely persuasive trick when it comes to large, tricky predators.

*"It took me 32 different proto-types and countless hours of testing and adjusting to achieve what I was looking for. The result is a unique lure with an incredible action and swimming pattern – even when fished at extreme slow speed for tricky pike during the coldest part of spring. When fished at high speed the action of the lure is just as incredible. Tight Lines".*

Allan Christiansen

- Tungsten body
- Lead free
- Ultra sharp and strong carbon steel hooks
- Custom-made Westin Colorado blade
- Integrated ball bearing swivel
- Active Eyes
- Hand painted detailed colors
- Tight and erratic swimming action
- Compact and long casting design

At Westin we love lures that are long casting and easy to fish. This hard nut casts a mile due to its compact shape and tungsten body. Let it sink to the desired depth and fish it on a steady retrieve. The Tungsten body is fixed directly into our custom-made Colorado spin tail, making this one hard diamond that will stand the test of time! Thanks to the direct connection the vibrations from the blade are amplified by the body, calling predators from far and wide. This extremely detailed lure can be fished in several ways and works great in all types of water, including deeper lakes, on rivers, and from the shore or boat. Try jugging it along the bottom. The blade will spin and vibrate even when the lure drops, triggering predators to strike. DropBite Tungsten Spin Tail Jig can also be fished vertically, straight under the boat, simply fish it up and down in the water column. A versatile and long casting lure that covers a lot of water with the most insane tight and erratic swimming action, thanks to its fat and compact shape.

This version of the popular Dropbite incorporates a new production process with an internal zinc core encapsulated in a semi-soft body. This version of the popular Dropbite can be fished at slower speeds, making it ideal for shallower water. Use it in depths from 1m, all the way to the depths on a steady slow to medium speed retrieve. The translucent moulded body enables three-dimensional colors to be incorporated giving a more realistic, detailed design that takes the Spin Tail's attraction to the next level. The custom-made Colorado blade is fixed directly into the metallic body, amplifying the fish-attracting vibrations and creating a seductive wobble in the body that attracts predators from far and wide. This extremely detailed lure can be fished in several ways and works great in all types of water, including deeper lakes, rivers, and from the shore or boat.

- Lead Free
- Semi-Soft body - Free from toxic phthalates
- Ultra sharp and strong carbon steel hook
- Custom-made Westin Colorado blade
- Integrated ball bearing swivel
- Active Eyes
- Hand painted detailed colors
- Tight and erratic swimming action
- Compact and long casting design

This is our Version 2 of the Bladebite Tungsten Bladed Jig, now with a thin, yet very strong custom-designed metal blade creating an amazing swimming action. The key to the BladeBite is the vibration and action, when being picked up in the first cast or in the pause the blade will immediately grip the water and start vibrating. A bladed jig works equally well in clear or stained water and is normally fished high-up in the water column over grass, wood and rock structure, where the enticing action

stimulates predators to strike. In pressured waters a bladed jig can be the difference between success and failure. We have also added a strong oval split ring out front to tie directly to your leader or for use with a wire trace. Feel free to experiment by adding any soft lures as a trailer, with curltails, paddletails, and creaturebaits working great and swimming beautifully.

HOT OLIVE P075-691-121 21 cm

BAITFISH GHOST P075-738-121 21 cm

Based upon the legendary TwinTeez, the TwinTeez Pelagic brings a new dimension to pelagic vertical fishing. The big seductive outline and fluttering fins create a realistic silhouette that big predators cannot resist. Tiny movements set the fins moving enticingly, just like a real bait fish. Thanks to the two jointed segments in the lower back and the large V-tail even the smallest twitch creates a mesmerising action. Fish the TwinTeez Pelagic with gentle shakes and twitches. On difficult, highly pressured,

venues barely moving the lure can be the secret to catching wary fish. Choose the TwinTeez Pelagic when specimen predators are your target. Rigged and Ready to fish straight out from the package with our ShadTeez ScrewIn Head combined with our custom-made stinger with a treble hook for the most realistic presentation this will be more than enough. For spooky fish we recommend using an additional stinger.

Want to catch a big one? Then the BullTeez R 'N R is the ultimate choice for big predators like pike and zander. The shad tail in combination with a slender wrist creates a seducing wriggling and belly-flashing action – even at low speed. Just this wriggling movement attracts and fools

the really big fish into attacking the lure. BullTeez can easily be fished with shallow rigs or right down in the depths with a regular jig head. For weedless presentation with a big offset hook we have equipped the BullTeez with slots on belly and back. Perfect for fishing into the reeds!

Watch your speed with this incarnation of Ricky the Roach - The short tail allows a smooth and slow glide through the water and the big shad tail offers a fast and erratic action. Whatever speed you choose, this lure bursts into action as soon as it hits the water and has a tight rolling body action. It looks just like a real roach - in fact, some coarse fisherman would be happy to catch this little guy, so the predators will love to eat him. Perfected for jigging and casting for bigger predators like bass, zander and pike.

- Lead free
- Japanese-style carbon steel hooks
- Soft body with inside weight - Rigged 'N Ready to fish!
- Life-Like Lure
- Optimized flexibility
- Realistic eyes
- Easy actions shad tail
- Slim body design with great belly flash
- Hand painted detailed colors

Wow Perch  
P062-250-026

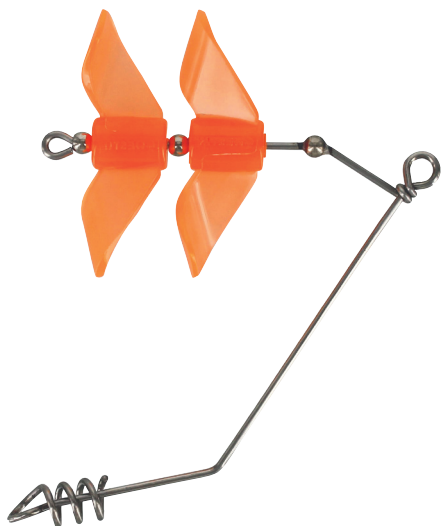

When predators sink to the deep, change your armory and take them on with the new HypoTeez Buzz 'N Blade. This Rigged 'N Ready variation of the hugely successful HypoTeez is easy to cast and quickly sinks to the depths where it can work its magic. With a simple retrieve, the lure wiggles its body and buzzes its propeller and blade until... STRIKE! Thanks to the balanced weight in combination with the propeller and blade which works as a break it's always sinking at a 45 degree angle. Meaning the propeller and blade have two purposes, creating vibrations in the water as well as keeping the HypoTeez in strike position! This bigger version of the normal HypoTeez features the same ultra-realistic Smelt design and is perfect for a wide array of predators.!

- **Material: Superstrong TPR**
- **Realistic eyes**
- **# 2 Treble Carbon Steel Hook / Single hook # 6/0**
- **Full wire-through body construction**
- **Life-Like Lure**
- **Soft body with inside weight**
- **Mounted with propeller and willow blade for the right buzz and slow sinking action**
- **45° sinking angle – strike position**
- **Hand painted detailed colors**

## ADD-IT SPINNERBAIT PROPELLER

**CRYSTAL**  
T37-337-169

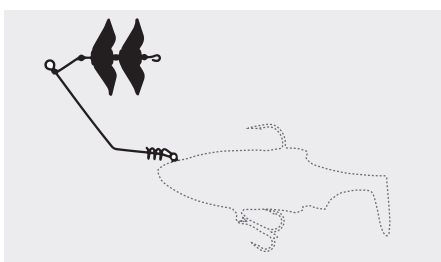

**CHARTREUSE**  
T37-618-169

**FLUO ORANGE**  
T37-598-169

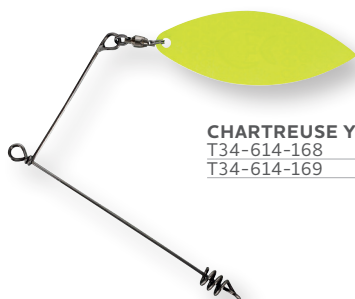

- Heavy Duty Stainless steel wire
- Fast and secure corkscrew attachment system
- Custom made semi-soft propellers
- Left and Right propeller rotation to ensure straight lure action

The Add-It Spinnerbait Propeller has two custom made semi-soft propellers that create a totally new and different turbulence under the water, which no predator fish can resist - they can feel it a mile away! The unique design and mount of the propellers ensures that one revolves to clockwise and the other counter-clockwise (two directions). Not only does this create an insane amount of turbulence in the water, it also ensures the Spinnerbait rig always runs straight. With a simple twist quickly Add-It to your favorite soft or hard lure and turn it into a spinnerbait! Thanks to our corkscrew system quickly and securely attach any lure with ease. Fish it slow in cold water, or fast over weed beds in the warmer months. The wide eyelet and precision-made construction ensure that your lure will swim freely at any speed.

Unleash the power of Ned rig fishing with the OFFSET NED JIG HEAD LEAD series. The head shape and Extreme Wide Gape (EWG) hook ensure the perfect lure position, enticing more bites. With ultra-sharp forged high carbon steel hooks, with micro barbs, and carefully designed wire gauges, these jigheads guarantee optimum strength and penetration. Available in four weights and three hook sizes for maximum versatility.

## SWIMMING JIG HEAD TUNGSTEN

- Black polished tungsten
- Thin wired, sharp hook
- Hook is black nickel coated
- Keeper system, great grip less damage
- Available in hooksize #1/0 and #3/0
- Available in 3,5 g, 5 g, 7 g and 10 g

Unleash the power of the SWIMMING JIG HEAD TUNGSTEN series, designed for medium soft lures. Navigate effortlessly through weeds and snags with the head's unique shape and Extreme Wide Gape hook. Enjoy a superb rolling swimming action with paddle tail lures, and an excellent swimming action with crayfish and creature baits. These heads feature ultra-sharp forged high carbon steel wire hooks, strong points, micro barbs, and a smooth finish. Carefully crafted wire diameters provide optimised strength and penetration. Choose from four weights and two hook sizes for ultimate versatility.

T87-215-205	SEATROUT SINGLE HOOK	#2/0	5 PCS	6
T87-215-305	SEATROUT SINGLE HOOK	#3/0	5 PCS	6

SEATROUT SINGLE HOOKS, the ideal choice for saltwater anglers targeting seatrout. Crafted from corrosion-resistant materials, and featuring a durable construction, these hooks offer long-lasting performance. With a super smooth finish, ultra sharp points, and strong yet thin wire diameters, they provide reliability and versatility for successful fishing. Choose from four sizes to match your fishing preferences.

## SALTWATER TREBLE

AVAILABLE  
01.01.2024

- Super smooth finish
- Saltwater resistant
- Durable and strong
- Available in sizes #1/0 up to #4/0

CODE	MODEL	HOOK	QTY	CT
T88-215-105	SALTWATER TREBLE	#1/0	5 PCS	6
T88-215-205	SALTWATER TREBLE	#2/0	5 PCS	6
T88-215-305	SALTWATER TREBLE	#3/0	5 PCS	6
T88-215-405	SALTWATER TREBLE	#4/0	5 PCS	6

Elevate your saltwater fishing game with SALTWATER TREBLE HOOKS. Designed with super strong materials and a smooth finish, these hooks offer unmatched durability and reliability. Available in four sizes, they provide the strength and hook-setting power you need for successful saltwater fishing adventures. Trust in their Westin quality craftsmanship.

## CIRCLE HOOK

AVAILABLE  
01.01.2024

- Available in sizes #10/0, #12/0
- Super smooth finish
- Saltwater resistant

CODE	MODEL	HOOK	QTY	CT
T84-816-101	CIRCLE HOOK	#10/0	2 PCS	6
T84-816-122	CIRCLE HOOK	#12/0	2 PCS	6

Experience the advantages of the CIRCLE HOOK CHROME. With their ultra-strong and sharp design these circle hooks provide superior hook sets. Their unique shape reduces deep-hooking, promoting catch-and-release fishing. Available in three sizes, they offer versatility for different fishing situations. Upgrade your gear and fish with confidence and sustainability.

# FLUOROCARBON LEADER

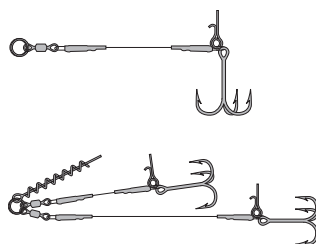

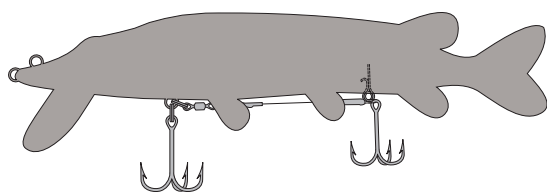

- Leader made of ST5 Fluorocarbon
- Strong and abrasion resistant
- Nearly invisible in the water

Enhance your fishing setup with our Fluorocarbon leaders, available in three lengths and three diameters. Crafted from high-quality Fluorocarbon, these leaders offer exceptional strength, invisibility underwater, and excellent knot strength. With their superior abrasion resistance and low visibility, they provide a reliable connection between your mainline and terminal tackle. Choose from the range of lengths and diameters to match your fishing needs. Experience the advantages of Fluorocarbon leaders and up your fishing game

## JOINTED STINGER

Add-It Jointed Stingers are made with two things in mind – versatility and extreme durability. The Add-It jointed stingers are extremely durable and long-lasting with multiple rigging and adjustment options. The Add-It Jointed Stingers can be mounted on a wide range of soft lures, with shallow-screws, screw-in heads and normal jigheads, and are essential when targeting toothy predators like pike, muskie, and zander. After hook-ups, the joints enable a free 360°-degree rotation, which provides an improved landing rate. Using swivels instead of wire increases the weight in the rig, helping to stabilize your lures to give them a perfect swimming action.

CODE	MODEL	STRENGTH	LENGTH	HOOK	QTY	CT
T52-320-140	JOINTED STINGER	32 KG	4 CM	#2	2 PCS	6
T52-320-139	JOINTED STINGER	32 KG	4 CM	#1	2 PCS	6

- Superior quality Splitring
- Black Nickel finish
- Available from 4 mm up to 12 mm diameter

Enhance your tackle with our black nickel split rings, available in seven sizes for optimal versatility. Crafted from durable materials, these split rings offer excellent strength and corrosion resistance. Ranging from 4mm to 12mm in diameter, they accommodate various lure and tackle sizes. Trust in our black nickel split rings for secure connections and durability, ensuring your gear stays intact during intense fishing sessions.

# POWER SPLITRING

AVAILABLE  
01.01.2024

- Extra strong quality Splitring
- Black Nickel finish
- Available in 4 sizes from 7 up to 10.5 mm

Take your tackle setup to the next level with our extra-strong Power Split Rings. These robust split rings are specifically designed for heavy-duty applications. Available in four sizes ranging from 7mm to 10mm, they provide exceptional strength and durability. Trust in our Power Split Rings to keep your hooks, lures, and other components securely attached, even during intense battles with big fish.

# OVAL SPLITRING

AVAILABLE  
01.01.2024

- Superior quality oval splitring
- Black Nickel finish
- Available in 6 mm and 8mm

Oval split rings are versatile connectors used in fishing for secure attachment of hooks, lures, and other components. The elongated oval shape provides strength and ease of use. With a black nickel coating for corrosion resistance, these rings are suitable for both freshwater and saltwater environments. Available in 6mm and 8mm sizes, they offer versatility for various fishing techniques. Use split ring pliers to open split rings. Upgrade your tackle with these reliable and durable oval split rings.

T75-215-183	SINGLE CRIMPS	Ø1.4 MM	20 PCS	6
T75-215-185	SINGLE CRIMPS	Ø1.6 MM	20 PCS	6

Upgrade your rigging arsenal with our brass single crimps, available in five convenient sizes. Crafted from durable brass, these crimps offer superior strength and corrosion resistance. Choose from sizes ranging from 0.8mm to 1.6mm to accommodate various line thicknesses. Trust in our brass single crimps for secure and reliable connections, ensuring your fishing setup is built to withstand the toughest challenges.

# GLASS BEADS

AVAILABLE  
01.01.2024

- Transparent and UV glass beads
- Ideal for Carolina rigs

Elevate your rigs with our glass beads, available in transparent and UV colors. These 4mm and 6mm diameter beads add visual appeal and attract fish. Transparent beads provide a natural look, while UV beads offer enhanced visibility. Use them in various rigs, such as Carolina rigs and spinning rigs, to create enticing presentations and increase the number of bites.

CODE	MODEL	DIAMETER	COLOR	QTY	CT

# GLASS RATTLES

AVAILABLE  
01.01.2024

- Glass rattles to upgrade the lure with extra sound
- Available in 3 sizes

Elevate the performance of your soft lures with our glass rattles designed to be inserted in the tails of soft lures. Available in three sizes, these rattles add enticing sound and vibration to your presentation. Simply place them inside the tail section of your soft lure for enhanced fish attraction. The different sizes cater for different lure sizes and species preferences. Upgrade your soft lure game by incorporating our tail-mounted glass rattles and increase your chances of enticing more strikes.

CODE	MODEL	SIZE	QTY	CT
T81-173-103	GLASS RATTLES	10 MM	5 PCS	6
T81-174-103	GLASS RATTLES	15 MM	5 PCS	6
T81-175-103	GLASS RATTLES	20 MM	5 PCS	6

# METAL RATTLES

AVAILABLE  
01.01.2024

- Metals rattles to upgrade the lure with alternative sound
- Available in 3 sizes

Enhance your soft lures with our metal rattles, offering a distinct alternative to glass rattles. Available in three sizes, these rattles provide a different sound and vibration profile to attract fish. Unlike glass rattles, metal rattles produce a sharper, more intense sound that can be highly effective in murky waters or when targeting aggressive species. Insert them in the tail of your soft lures to create additional noise and vibration, increasing their overall appeal and enticing more strikes. Choose metal rattles for a unique sonic advantage in your soft lure presentations.

# COATED STAINLESS STEEL 49-STRAND WIRE

AVAILABLE  
01.01.2024

Discover the advantages of our coated stainless steel wire for your fishing endeavours. Crafted from silky-soft 49-strand stainless steel, this wire offers flexibility, easy knot tying, and added durability, thanks to its protective coating. The coating provides enhanced resistance against corrosion, ensuring long-lasting performance in various fishing conditions. With its matte black color and five different strengths, this is the ideal choice for making traces and rigs. Enjoy the benefits of coated wire, including improved durability, enhanced corrosion resistance, and easy maintenance.

- Stainless high carbon steel wire matte black
- 7x7 strands braided with perfection
- Perfect for crimps and easy to knot
- Soft, strong, durable and flexible
- Coated with abrasion resistant Co-Polyamide

Fluorocarbon leaders can be engineered with a varying degree of suppleness, rated ST1 to ST5, to perfectly match the fishing style and prevailing conditions. A fluorocarbon line with an ST1 rating is designed to offer maximum stiffness, providing excellent sensitivity and optimal control for precision casting and hook-setting. At the other end of the spectrum a fluorocarbon line with an ST5 rating is engineered for maximum flexibility, allowing for increased knot strength and durability. Whether you need a stiff fluorocarbon line for finesse presentations or a supple line for improved handling, our range of lines with different ST ratings has you covered.

## W|6 ST3 FLUOROCARBON

W|6

- Fast sinking
- Abrasion resistant
- 100% Fluorocarbon
- Medium stiffness
- High knot strength

W6 ST3 Fluorocarbon delivers incredible abrasion resistance and maximum impact and knot strength, all with a small diameter. Fast-sinking line that gets you in the "strike zone" quicker - and with a lower refractive index than monofilament line, it is significantly less visible underwater. W6 ST3 fluorocarbon is offered in diameters from 0.14mm to 1.20mm.

## W|6 ST5 FLUOROCARBON

W|6

- Fast sinking
- Exceptional knot and tensile strength
- 100% Fluorocarbon
- Soft and supple
- Low memory

W6 ST5 Fluorocarbon provides both strong and supple leader material. Our exclusive production process to create a leader with smaller diameters yet with exceptional knot and tensile strength. Extremely soft and supple, making knot tying easy while maintaining its strength. Low line memory compared to other Fluorocarbon leaders, making line management more user-friendly.

This powerful top water bait takes the learning curve out of walking the dog, and it packs decades worth of fish catching experience into subtle features that increase your odds of landing the big one. A life-like fish patterned body pairs with oversized, realistic eyes for the right look to lure in bass, snook, perch, redfish and seabass. Elevated ribs create ex-

tra surface turbulence. A unique nose scoop creates a finessed pop to tempt timid predators, much more subtle than the traditional popper. The Spot-On Top Walker's V-shaped body creates stability in the water paired with a low-sitting tail that increases hook-up ratio!

Be careful when tying this lure onto your line, he's such a life-like crab that he may give your fingers a little nip! Of course we're kidding, but Coco the Crab is a HUGELY realistic crab lure – made from a 3D scan of the real thing. We spent a huge amount of time researching real crabs from around the world to create this lure and the wide range of amazing trigger colors and patterns it is available in. When fished along the bottom, the defending foam claws rises above

the crab's body and the semi-soft, realistic legs add balance and realism. It can also be fished easily in mid-water. It features a tungsten belly that means he always lands the right way up and makes Coco a lead-free warrior! Fish him slower with gentle twitches or jig him fast and work with short distinct movements and be ready... Coco is the perfect snack for a wide range of both salt and freshwater predators!

The original Westin Swim Glidebait has many benefits – a compact shape, a realistic baitfish imitation design and the ability to cast like a bullet through the harshest wind. These benefits, while awesome for freshwater fishing, make the lure a perfect candidate to be a saltwater champion – so that's exactly what we did. This saltwater edition of the Swim is designed to target saltwater trophies like Redfish, Snook, Striped Bass, GT's and many more, thanks to some new saltwater-specific paint

jobs and new extra strong hooks and split rings. The Swim is so easy to use, anyone could catch monsters on it. You can fish the Swim with "pull and wind" or on a steady retrieve, slow or fast, to create the action of a wounded, panicking baitfish and the panic can be increased with faster retrieves and regular pauses. This salty cousin of one of our most successful lures just opened up a whole new world to saltwater anglers.

We have created a jig lure for saltwater species that is simple, beautiful and gets the job done. Whether you're targeting seabass, mackerel, barracuda or amberjack, this baby can be used to catch them in a variety of ways. Spinning, vertical jigging, jigging and slow jigging all produce results with Salty thanks to its flattened and curved body profile. It is

equally at home splashing in the shallows or diving into the depths and promises to reduce lost fish thanks to a reinforced single hook and double split rings that allow it some movement when a big one strikes. Salty is a no-frills, fish-catching favourite that you need in your tackle box.

- Material: ABS plastic
- Lead free
- Ultra-sharp saltwater hooks
- Full wire-through-body construction
- Long casting design
- Hand painted detailed colors
- Perfect for Snook, Redfish, Tarpon, GT, and Striped Bass

## SANDY ANDY SPARE BODY/SPARE HEAD

NOT FOR SALE IN DENMARK

**SPARE HEAD 150 G** S075-287-135

The most realistic sand eel imitation ever made, this lovingly hand-painted little fella will bring in sea bass, cod, lingcod, halibut and whatever's hungry in the area. The pre-moulded jig mounted with an ultra-sharp sea hook and soft, durable body allows you to replace tailpieces and prolong its life, while the range of colors goes from natural to acid house! So, whether you use a jig-and-sink method or just a steady retrieve, it won't leave much time for drinking beer!

When the big halibut and huge cod are proving tricky and hard to tempt give daisy a little jig and your chances will seriously pick up. She has an insanely sexy movement and swimming pattern - even fished slowly. Based on juvenile saithe - the favourite fish supper for the big trophy specimens hunting the seas and shores around Norway. We've included two different bodies - the curltail for a smooth, wormlike swimming action (even at the slowest speed) - and the paddletail for that "take-me-now" wounded-panicky-fish action. We've spent years testing and perfecting the movement, trying out every possible change in shape, size and weight distribution. The experienced guides from Nordic Sea Angling who tested it now think we've succeeded - and some scarily big fish agree!

Translated into English Sølvpilen means Silver Arrow. This Lead free lure will cast like an arrow flies, and it has proved to be a great lure to imitate prey like sand eels. Several sea trout exceeding five kilos has been caught on this lure and even Atlantic salmon has been caught when using Sølvpilen from the shore. So far the biggest we have heard of was a 10.7 kg salmon caught in Lillebaelt in Denmark...

- Lead free concept
- Material: Zinc
- Several UV, FluoMax and MetalPlated colors
- Ultra sharp and strong treble hook
- Hook size: #4 / #3 / #2
- Stay On – double split ring hook mount
- Designed and developed in Scandinavia

Making great lures even better is something we specialize in here at Westin, so when creating the F360°, we combined the best traits and key features from both the D360° and D360°D lures to create a long-casting seatrout lure with a stunning life like swimming action. It's good looks are paired with great strength thanks to a full wire through body, mounted double split rings and strong treble hooks. A medium/fast retrieve will catch the hungry seatrout's eye and with a spin/stop to create irregular rotation, you can be guaranteed that a bar of silver is coming your way.

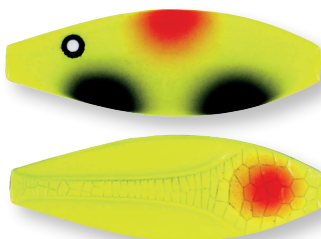

- Lead free
- Material: Zinc
- Long casting design
- Hook size: #6/#4/#4
- Full wire-through-body construction
- Durable hand painted detailed colors
- Designed and developed in Scandinavia

INCLUDED

This inline lure is designed to catch more fish and lose less! It will cast far and has a great irregular action that will attract fish from far away. Occasional spin stops will make it spin and rotate to attract even more trout. The D360° trout version is designed for put & take fishing as well as other types of trout lakes where the fish sometimes tend to be very shy. If necessary, D360° can be fished at an extremely slow pace and still keep its vivid action. This will make a huge difference in catch rate on high pressure waters. The several front/back contrast colors are another feature that will make a great difference. When fishing for wild trout in alpine lakes this small D360° is worth a try. It will catch both numerous and huge trout's. Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

- Internal Teflon tube
- Lead free construction
- Material: Zinc
- Erratic side-to-side action
- Continues to rotate during spin stops
- Long casting
- Single hook
- Inline concept helps you lose less fish!

The D360 V2 is an updated version of the famous and fish-catching D360. The new version features a slimmer profile and a smoother surface compared to the original D360. These changes, together with moving the balance point further back, has increased casting distance and improved the action. During a steady retrieve the D360 v2 swims in an erratic side-to-side action. During spin stops the lure continues to rotate – these are features that even the trickiest sea trout cannot resist. Even in strong winds the D360 v2 can be cast long distances, but will still fish shallow.

INCLUDED

Designed to catch more fish and lose less, this in-line lure is based on a classic that just keeps catching the big ones! Narrower than the original D360° and with more weight in the tail, it allows you to cast to the horizon, even in a stiff wind, in search of the best fish. It rotates on the retrieve making the big seatrout go wild, and comes in a wide range of irresistible handpainted colors. Just cast it out and watch it go like a fish-seeking rocket!

- Designed and developed in Scandinavia

INCLUDED

Translated to English the name Sømmet means “the Nail” – and it will nail those big trout. This in-line lure is a perfect long casting lure and one of the all-time favorites among hardcore sea trout anglers in parts of Scandinavia. It might look like a nail, but in the water it’s a great imitation of sand eel – perhaps the most important prey for big sea trout hunting in shallow water. Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single- or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

- Ultra sharp single hook
- Life-like action
- Detailed design
- Inline concept-loose less fish!

INCLUDED

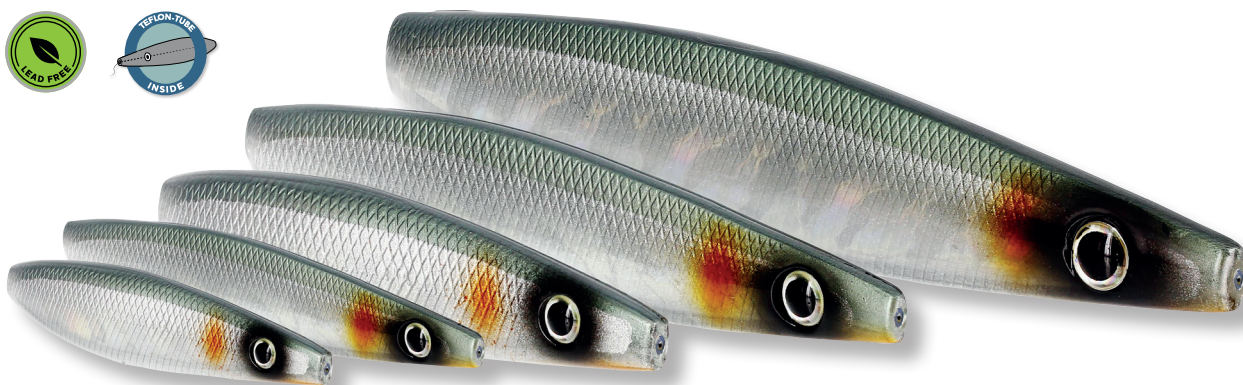

Sandy Inline is designed for coastal saltwater fishing when sea trout are patrolling the reefs, sea bass are feeding in the surf, and other saltwater species are searching for prey. Sandy Inline imitates a sand eel and features great movement at both high and slow speed. It mimics an escaping bait fish when retrieved fast with spin stops. At a slower retrieve Sandy Inline swims in a tight S-curve, imitating a cruising sand eel. Sandy Inline casts to the horizon thanks to the streamlined body and intelligent placement of the weight system. This lure comes in several irresistible colors, from natural sand eel patterns, to brighter colors to cover all conditions. The inline concept improves hooking, and will put more fish in the net.

Based on the bestselling Westin lure Salty, this Inline lure has it all. It will cast far even against the hardest wind, it can be fished fast or slow, it can be used in shallow as well as deep water and it has a swimming action that appeals to trout and seabass at all times of year. Salty Inline imitates numerous baitfish on the seatrout and seabass menu and the inline system ensures a significantly better hook-up ratio.

The Westin Goby V2 will be your new best friend when targeting sea trout, sea bass, trout, or stocked rainbows, as well as salmon and trout in rivers.

The Westin Goby V2 is a baitfish imitation featuring a compact body that enables it to cast far and cut through even the hardest winds.

The shape and perfectly balanced weight distribution give it a seductive slow rolling side to side movement when retrieved, and during spin-stops it stays horizontal while it wiggles down through the water column flashing its belly enticingly from side to side.

The Westin Goby V2 is suitable for fishing in all conditions – fish it in heavy waves or calm water, fast or slow, add the occasional spin stop... and wait for the fish of your dreams to strike!

Great Heron is a lure designed according to Finnish lure traditions. It was created and tested in cooperation with experienced anglers from Finland and Sweden. Right from the very beginning it has proved to be a highly efficient lure – not only for trout and salmon, but also for species like asp, perch and pike. Great Heron can be retrieved fast or slow. Regardless of the speed it has a very vivid action that will trigger the bite. No wonder this lure has become one of the most popular lures in Scandinavia!

This best selling Westin lure has it all. It will cast far even against the hardest wind, it can be fished fast or slow, it can be used in extremely shallow water and it has a swimming action that appeals to trout at all times of year. Try the largest version when night fishing for really big trout during the summer. Numerous fish in excess of five kilos have been tricked by the action and the baitfish-like silhouette this lure creates. And if we're talking picky trout in wintertime nothing can compare to the medium or small versions fished at a slow pace with a few twitches of the rod tip and a couple of pauses during the retrieve.

- Lead free concept
- Material: ABS plastic / Zinc
- Several UV, FluoMax and Glow colors
- Ultra sharp and strong treble hook
- Hook size: #6 / #4 / #2
- Stay On – double split ring hook mount
- Designed and developed in Scandinavia

Great Heron is a lure designed according to Finnish lure traditions. It was created and tested in cooperation with experienced anglers from Finland and Sweden. Right from the very beginning it has proved to be a highly efficient lure – not only for trout and salmon, but also for species like asp, perch and pike. Great Heron can be retrieved fast or slow. Regardless of the speed it has a very vivid action that will trigger the bite. No wonder this lure has become one of the most popular lures in Scandinavia!

# OPTIC 360° SPINNERS

- Material: Brass
- Instant 360° rotating blade
- Ultra sharp and strong treble hook
- Optic blade – reflects light from different angles
- Designed and developed in Scandinavia

The brass body construction of the Westin Optic 360° has an aerodynamic shape that will ensure great casting distance and accuracy. The beautifully designed brass blade will reflect light from different angles. It rotates at the slightest touch of the reel handle and initiates those im-

pulses of movement that no trout, salmon or other predator can resist. This is simply the best looking and most attractive spinner out there and the strong Japanese-style hooks will stand the test of even the hardest fighting fish.
