#### **ROD FIBERS**

#### **CarbonFusion CF**

Our best fibre for our premium carbon rods. The fibres used for these rods are short, thin and tightly woven together. The fibres are rolled in multiple layers creating a rod which is light, fast and sensitive

#### CarbonTech CT

An excellent carbon which offers lightness and speed. The fibres are kept short combined with modern resin binding the layers together for a crisp action. The weight is kept low and the rods using CT fibres will give you great casting performance.

#### CarbonLiner CL

These fibres are mixed between glass fibres and carbon fibres. The rods using CL fibres are excellent fishing rods with a more parabolic action due to less stiffness and thicker fibres. You get a lot of modern fibres in a fishing rod for little money.

#### FibreStrong FS

Probably the toughest fibres on the market. Fibre glass combined with epoxy creates strong rods. Almost unbreakable. The fibres are thick and fairly soft, but you get a really great rod for fighting the fish. Due to the toughness of these rods you can fight even big fish on light rods. Great fun.

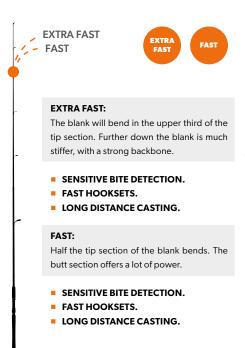

#### CrystalCross CC

Fibre glass never goes out of fashion. A very though material, not very elegant, not very sophisticated but a fibre which should be considered as a real work horse. Value for money!

#### **ROD ACTION**

ALL KINETIC RODS HAVE AN INDIVIDUALLY DESIGNED ROD ACTION TO PERFECTLY MEET THE REQUIREMENTS OF A SPECIFIC ANGLING APPLICATION:

# MEDIUM FAST MEDIUM FAST The rod bends from its tip nearly down to the middle of the blank. The butt section offers a lot of power. CONTROLLED HOOKSETS, EVEN ON LONGER DISTANCES. LONG DISTANCE CASTING POSSIBLE.

#### MEDIUM:

The rod bends from its tip all the way down to the middle of the blank. The butt section offers a solid backbone.

THE MOST VERSATILE ROD ACTION.

- CONTROLLED HOOKSETS, EVEN ON LONGER DISTANCES.
- LONG DISTANCE CASTING POSSIBLE.
- THE MOST VERSATILE ROD ACTION.

SLOW MEDIUM:
The blank bends from its tip all the way down to just above the handle section.

BEST FOR FIGHTING FISH AND KEEP-ING FISH HOOKED.
EXCELLENT SHOCK ABSORPTION
EVEN IN CLOSE RANGE.

SLOW:
The entire blank evenly bends from its tip down to the handle and is relatively soft.

SLOW MEDIUM

- BEST FOR FIGHTING FISH AND KEEP-ING FISH HOOKED.
- EXCELLENT SHOCK ABSORPTION EVEN IN CLOSE RANGE.

RODS FRESHWATER RODS

#### **XARANN UL CT**

#### **XARANN UL CT**

The Xarann Ultralight has been specifically designed for light spin fishing targeting perch and salmonids. Featuring an exceptional rod blank, they boast superb casting capabilities and remarkable sensitivity. With a moderate action, they accommodate various artificial lures, enabling precise bite detection, and excellent lure control. Whether pursuing perch with softbaits or crankbaits, trout with small spoons, or engaging in ultra-light fishing for sea trout along the coast, the Xarann UL is a versatile tool. Despite the lightweight design, Xarann UL rods possesses ample power reserves to handle strong fish. In summary, the Xarann UL stands out as an outstanding spinning rod for ultra-light predator fishing, offering unmatched value for money, and covering a diverse range of fishing techniques.

#### **XARANN PREDATOR CT**

#### XARANN PREDATOR CT

The Xarann Predator rod series from Kinetic are tailored specifically for predator fishing, encompassing the various tactics and rigs essential for targeting powerful predators. Whether you prefer jerk, casting, or spinning techniques, both at close range and afar, the Xarann Predator rods deliver exceptional performance. These rods are true workhorses, featuring impeccable through-actions and exceptional balance to provide an unparalleled lure fishing experience. Lure fishing relies heavily on the right setup, and having the correct balance of tackle enables you to detect every snag, nibble, or bite, whether you're on a boat or fishing from the bank the unique design of Xarann Predator rods gives you this balance. Ideal for setups targeting larger predators, these rods are constructed with high-modulus carbon blanks and boast EVA grips and handles. Remarkably lightweight and perfectly balanced, the Xarann Predator rods have been meticulously optimised for the perfect action. The spin rods excels in strength in the butt section, allowing you to effortlessly manoeuvre larger pike towards the net.

#### **TARGET CT**

#### **TARGET CT**

Looks expensive. Definitely feels like a high-end rod. But the Kinetic Target CT spinning rod carries what many predator and trout anglers would consider an affordable price tag for the performance level. Crafted on a lightweight, 2-piece CT graphite blank, it features a highly sensitive tip with plenty of backbone for hook setting. Ultra-light single high frame SIC guides minimize weight and increase casting distance. We've added our 1-piece skeletonized reel seat for enhanced sensitivity, premium cork handle with rubberized-cork trim, EVA butt, and reverse-taper foregrip.

#### VILDMARK CC

#### VILDMARK CC

Gearing up with a strong-performing, fun-to-use spinning combo for trout, perch and pike fishing doesn't mean getting spendy. The Kinetic Vildmark Combo is the perfect example of our high-performance, high-value concept. The spinning reel features a rugged graphite body and a electroplated graphite spool. Its smooth bearing system includes instant anti-reverse. The rod is built on a strong, 3-piece parabolic fiberglass blank with great tip feel. The comfortable EVA handle provides a good grip in any weather, and the graphite reel seats have reinforced stainless steel hoods for a nice, firm connection between rod and reel.

## **BOAT CC**

#### **BOAT CC**

Save money and land yourself a superb saltwater fishing setup with the Kinetic Boat Fishing Combo. It pairs a quality lever drag reel with a powerful rod to amply support your quest for a trophy. The Kinetic Boat reel is built like a tank, yet lighter than most reels in its class. Its instantly adjustable lever drag system utilizes a star drag system built to handle the stress of long runs and deep dives. The powerful rod is made up of a tubular 2-piece fiberglass blank that easily handles trophy fish. EVA grips won't fatigue your hands during the fight, and a graphite reel seat secures the reel for worry-free performance

## 348: RED/GOLDEN FLASH

109:BLACK/COPPER FLASH

349: RED/BLACK GLITTER

## KINETIC SMØLFEN

The shape of this lure is well balanced for casting and the swimming action is outstanding. You will notice when you stop retrieving Kinetic Smølfen will start rotating around its own axis. You can fish the lure in various ways and the lure is generally very easy to fish. The holographic surface combined with the clear orange striking point towards the tail, will release much attraction.

## KINETIC BELONE FLASH SILKY

#### KINETIC BELONE FLASH SILKY

The garfish comes in large number during spring. They are hungry and hunt constantly with their bony beak full of teeth. When they grab the lure with the silky thread they are "hooked" in a new way and you will lose less. If thread is replaced by hook you can catch more species. The silky thread is only targeting garfish

WADING GEAR WADERS

# **WADERS & BOOTS**

Imagine walking in drizzling rain for 8 hours to reach a remote, small mountain lake in northern Scandinavia. Imagine fishing a full week by a salmon river at the beginning of the season, when the water is cold and the weather is unreliable. Imagine spending several days in big waves hunting for a monster seatrout along the Scandinavian coastline.

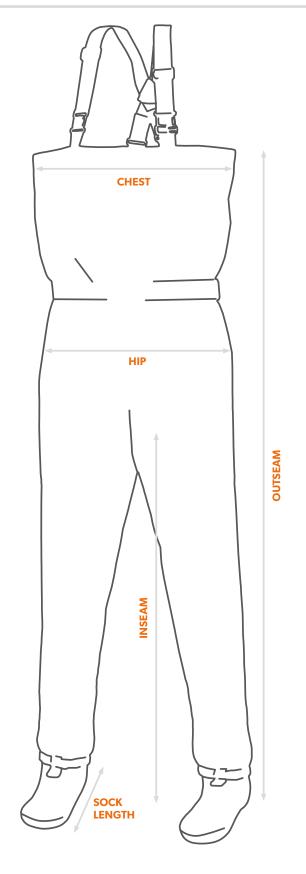

These are just some of the challenges our Kinetic test team has to face. Some people wonder why these guys do it, but most anglers know that this is sometimes what it takes to catch a big fish. The wide range of Kinetic products are all designed and developed using the knowledge and experience from our test team. All waders and wading boots are made to fit and perform even when fishing gets extreme. The difference between a perfect and a not functional product can be some small important details, for example placing and size of pockets and choose of breathable lightweight materials as well as other high grade materials where it is needed. All of this has one purpose: To keep you warm and dry regardless of the weather.

#### WADERS SIZE CHART

Choosing the right size is the key for optimal comfort and performance. The right fit must be snug but not too tight. Too tight fit can cause stretching of the seams and result in leakage. The sizes are available in Standard, King and Long. An average built person's starting point is the Standard size. If you are slimmer and/or taller the option is to go for the Long size. If you are heavier built, choose the King size.

To give you an indication of your size, follow the measurements shown in the tables below, using the 5 measuring points being Chest (1), Hip (2), Inseam (3), Outseam (4) and Sock length (5). This will give you a fairly good idea about the size you need, but trying the waders at your local retailer is always recommended.

**BREATHABLE WADERS**

# **KINETIC 4-BRAID**

## **KINETIC 4-BRAID**

If you're looking for your favorite fishing braid, look no further than Kinetics' 4-braid. The smooth surface on this fishing line whispers through your rod's guides on the cast. Sensitive enough to feel even the gentlest bites. Super-tough and abrasion resistant.

- ULTRA-HIGH MOLECULAR POLYETHYLENE
- MOST ADVANCED 4 BRAID TECHNOLOGY
- SLICK SURFACE FOR LOW FRICTION
- DUSTY GREEN COLOUR

BITEINDICATORS ACCESSORIES

## KINETIC XT-RUN BITE ALARM SET 2+1 / 3+1

#### **KINETIC XT-RUN BITE ALARM**

Introducing the Kinetic XT-Run Bite Alarms - the go-to solution for easy-to-use and reliable bite detection. With their sleek and modern design these alarms boast a range of cool features. One standout feature is the mute function, a valuable tool for carp anglers who prefer to fish in silence. Additionally, the receiver has a convenient vibration function, ensuring you won't miss a single indication when in mute mode. Reliable 1:1 head-to-receiver wireless transmission that works seamlessly up to a range of 100 meters. The heads are powered by a widely available 9v battery, while the receiver runs on 3 AAA batteries (not included). The Kinetic XT-Run Bite Alarms are the perfect choice for anglers seeking a reliable indicator that offers excellent value for money. Available in 2+1 (red & yellow heads and receiver) and 3+1 (red, yellow & green heads and receiver).

- VOLUME CONTROL CAN BE ADJUSTED TO ZERO
- 20SEC LATCHING LED
- VERY LOW BATTERY DRAIN
- MEMORY FUNCTION---SETTINGS REMAIN AFTER SWITCH OFF
- WATER RESISTANT

PARTNERSHOP KINETIC PARTNERSHOP

Welcome to our Partnershop, developed for our dealers in Fairpoint Outdoors. We expect that the shop will function as a primary tool for your supplementary orders. The shop is open 24/7 and gives you access to product photos and stock information. It is set up like a classic webshop, like most of you know, where you can browse products, search for specific article numbers or product names, and of course, put your orders in the shopping cart.

In order to open the webshop, you need to use the personal login provided by Fairpoint Outdoors. When you are logged in, you will see the prices that are yours, in accordance to the agreements you have with Fairpoint Outdoors. Aside from shopping, you can get an overview of open or closed orders connected to your profile, make lists of favorite products for quick ordering or download product and or ad images.

In the guide at hand, you will be able to read about the different func-

tions of the webshop in more detail. Should you need any help, guidance or if you have questions for the webshop, you are welcome to contact our customer service through our main number; +45 48 10 38 00, or by e-mail: info@fairpointoutdoors.dk.

**Get started!** In order to enter the partnershop, you need to type the following address into your internet browser: **out.fairpoint.dk** 

**Login** Once you have reached the FrontPage of the webshop, you need to type in the login information you have received from Fairpoint Outdoors by e-mail.
